

1. Reason for revision

Since January 2015, the "Act on Registration and Evaluation of Chemical Substances, etc."

Registration and change registration of chemicals, registration notification, hazard examination

By eliminating difficulties in implementation and management of the system,

Not only does it register and manage material information, but it also meets safety and labeling standards.

The methods and procedures for collection and collection of non-product

To protect the health of the people through rapid collection of products

2. Main contents

end. Extension of registration and change notification notice period (Article 6 (1) 2, 9 (3))

Amendment to Article 2 (2)

A small amount of new chemical substances (less than 1 ton) is registered for 2,000 / year, 10 or more days /

- It is difficult to technically handle change registration data for 3 days.

And it is worried about the poor examination, so the registration / change registration notification period is 10 days (maximum

20 days) to ensure proper screening period and enhance the reliability of information management

I. Modification of registration and change of notification method (Article 9 (3), Article 11 (2))

1) The applicant is notified of the change registration result at the time of the change registration notice

And the history management such as the registration and the change registration record of the chemical substance concerned

Revised to record changes to the registration notice that has already been issued

2) After 7 days from the date of notification to the National Institute of Environmental Research

It is assumed that the change notification has been repaired without issuing a separate notice.

All. Omit submission of contract documents with the testing organization when submitting the test plan (Article 14 (2))

2)

When submitting the test plan, submit the specific method, schedule, and test

Contract documents with the testing organization to submit the test.

Eliminate the burden of registration applicant by deleting the submission item

la. Review of the test plan and improvement of notification (Amendment of Article 15 (1) and (3))

1) The National Institute of Environmental Research should review the test plan within the registration notification period.

2) There is no amendment or supplement of the National Environmental Science Institute under Article 15 (2).

, Submit the test data according to the plan on the submitted test plan.

hemp. Joint submission of registration application materials such as risk materials (amended Article 16 (2))

Risk material or guidelines for safe use are agreed upon by members of the council

If not, the parties to the agreement will

bar. Improvement of joint submission methods and procedures of registration application materials (Article 17 (1) Amendment,

Article 17 (3))

If a representative is not selected for joint registration of existing chemical substances or

If the agreement is delayed and there is concern about the registration, smooth registration should be promoted.

To allow the Minister of Environment to recommend a representative or adjustment.

four. Improvement of method of harmful examination (amended Article 23 (1))

Among the registered chemical substances, data such as use, classification and labeling, manufacture and

The screening of risks and risks through screening is conducted according to the priority.

Improvement of hazardous substances examination and measures for substances expected to be

Ah. Measures such as the collection of measures Measures for the implementation and execution of measures

(Article 48 amendment)

Producer of the product collecting body.

Businesses manufactured by development and production, suppliers and subcontractors and sellers ("Distribution industry

(Limited to the establishment of a large-scale store pursuant to Article 2 (3) of the "Development Act")

Improve consumer convenience and improve recovery measures quickly and clearly

character. Elimination of special registration for change registration of a small amount of new chemical substance (deletion of Article 3)

If a small amount of new chemical is changed to the upper tonnage range, a separate grace period

To be registered within one month from the date on which the change occurred.

car. Supplementation of registration exemption confirmation application materials (Appendix 5 revision)

1) In the case of chemicals for R & D,

Must submit within three months of the end of the period spent on research and development submitted

2) Duration of research and development, expected amount of production / import,

If there is a document that can prove this,

You must make a change request to

3. Notes

end. Relevant Laws: Omission

I. Budget Action: No action required

All. Agreed: Agreed with OOOO Department

la. Others: 1) Novel and structural drawings

2) Notice of Legislation (from June 30 to May 31, 2017)

Enforcement Rule of the Act on the Registration and Evaluation of Chemical Substances

Some amendments

Part of the Enforcement Regulations of the Chemical Substance Registration and Evaluation Act Revised.

Within Article 6 (1) of the Act, the words "within" or "within"

If the applicant submits the test plan pursuant to Paragraph 3,

Days "), and " 3 days "in the second paragraph of the same paragraph shall be" 10 days "

The "7 days" in the call leads to "20 days".
