Immediate Past Chairman

Chairman's Desk

Dr. Satish Wagh,
Chairman, Chemexcil

“ Dear Esteemed Members and Colleagues,

As we usher through the latter part of 2025, I take immense pride in reflecting upon the resilient and evolving landscape of India's chemical export sector—a dynamic engine that fuels not only our economy but also India's stature on the global industrial map. Our journey so far this year has been marked by remarkable challenges and corresponding achievements, underpinned by the unwavering commitment of our exporters and the strategic guidance of CHEMEXCIL.

Our export performance between April 2025 and November 2025 recorded exports worth USD 13.56 billion, registering growth despite the persistent turbulence in international markets and protectionist trends worldwide. This illustrates the steadfast determination and agility of Indian exporters who adapted to shifting regulatory frameworks and market dynamics through innovation and compliance.

One of CHEMEXCIL's core missions has been to empower our members with a comprehensive understanding of evolving global trade compliance requirements. Our ongoing Trade Compliance Series, highlighted by intensive workshops held in Mumbai and Kolkata, has addressed critical topics such as Harmonized System Nomenclature (HSN), Authorized Economic Operator (AEO) certifications, and SCOMET regulations for dual-use goods. These expert-led sessions have been instrumental in helping exporters mitigate risks, streamline cross-border operations, and align with stringent international

2. *Please note that this bi-monthly bulletin covers activities during the months of October - November, 2025.*

standards—thereby enhancing our global competitiveness and trade facilitation.

In parallel, we continue to champion the cause of digitization and regulatory transparency. Platforms like the ChemIndia Portal enable real-time tracking and reporting of export activities, ensuring better governance and traceability. Our strategic collaborations with government agencies, including the Ministry of Commerce, DGFT, and Customs departments, foster a regulatory environment that supports both compliance and growth.

Sustainability and innovation remain the cornerstones of our future. In alignment with global trends and India's commitment to sustainable development, CHEMEXCIL is intensifying efforts to promote green chemistry, eco-friendly manufacturing practices, and compliance with international environmental standards such as the REACH regulations in Europe. These initiatives not only protect our environment but also open new avenues in eco-conscious markets worldwide, positioning India's chemical industry as a preferred supplier committed to responsible production.

Beyond compliance and sustainability, our vision encompasses nurturing an ecosystem that supports MSMEs and emerging exporters, ensuring inclusiveness and broad-based growth. As a long-time advocate for entrepreneurship and skill development, I am dedicated to driving educational outreach and capacity-building programs, thereby equipping future leaders with the knowledge and confidence to scale new heights.

Looking ahead, CHEMEXCIL will intensify its role as a catalyst for export promotion. We aim to facilitate more international collaborations, advance market intelligence services, and support value addition across the chemical value chain. Together, we will harness technology, embrace sustainability, and foster partnerships that propel India's chemical exports into a new era of global leadership.

In conclusion, I extend my heartfelt appreciation to each member of CHEMEXCIL for your resilience, collaboration, and trust. Our collective effort is vital as we navigate challenges and seize opportunities in this transformative phase. Let us move forward with confidence and shared purpose, steering the Indian chemical industry towards sustained excellence and global recognition. 

With warm regards,

Dr. Satish Waman Wagh
Chairman, CHEMEXCIL

Director General's Desk

Mr. Raghuveer Kini,
Director General, Chemexcil

Dear Members and Friends,

As we advance through the final quarter of 2025, it is my privilege to share updates on CHEMEXCIL's multifaceted efforts to support and strengthen India's chemical export sector, which continues to demonstrate remarkable resilience and adaptability amid global trade complexities. This period has been especially eventful, marked by significant capacity-building initiatives, meaningful international engagements, and progressive digital interventions aimed at enhancing export facilitation and regulatory compliance.

A major highlight of recent months was the full-day Capacity Building Workshop held on November 4, 2025, in Kolkata. This workshop formed part of CHEMEXCIL's ongoing Trade Compliance Series and focused on critical topics such as Authorized Economic Operator (AEO) certification, SCOMET export controls, and the utilization of the ChemIndia Portal for mandatory reporting. Bringing together customs officials, regulatory authorities, trade law experts, and exporters, this event fostered a deeper understanding of evolving compliance landscapes. Attendees benefited from practical insights and action-oriented guidance crucial for ensuring seamless cross-border trade and safeguarding India's export integrity in chemicals, cosmetics, and dyes. This session followed the successful inaugural workshop held in Mumbai in September, underpinning our commitment to expanding regulatory awareness across key export hubs.

Webinars have become a vital vehicle for outreach and knowledge dissemination. On October 10, 2025, CHEMEXCIL, in collaboration with ICICI Bank, conducted an informative session on "Managing Credit Risk for Exporters – How Credit Risk Insurance Helps," enabling exporters to mitigate payment defaults risks and enhance financial security. Looking ahead, we have scheduled a webinar on November 20 focusing on the "Overview of Agrochemical Registration in the EU, UK, Turkey, and India." This webinar aims to demystify complex registration procedures by sharing regulatory frameworks, harmonization opportunities, and compliance strategies, empowering exporters to navigate regulatory hurdles efficiently and access global markets with confidence.

International engagements are central to expanding India's export footprint. CHEMEXCIL was proud to participate in the India-Russia Trade Delegation held recently in Moscow, where our delegation engaged with Russian chemical industry leaders, government representatives, and business chambers. This event facilitated meaningful dialogues on bilateral trade enhancement, technology exchange, and partnership development particularly in petrochemicals, dyes, and specialty chemicals sectors. Given Russia's strategic role as a trading partner, this engagement not only strengthens existing ties but opens new pathways for Indian exporters to diversify and deepen their market presence in Eurasia.

Parallel to on-ground events and international outreach, CHEMEXCIL is championing digital transformation initiatives that simplify and accelerate export processes. The recent pilot launch of the "Bharat Aayat Niryat LabSetu," spearheaded by DGFT, is poised to revolutionize testing and certification by providing a single-window digital platform connecting exporters, importers, and accredited testing laboratories nationwide. This seamless

interface enhances transparency, reduces turnaround times, and promotes paperless transactions, thereby greatly facilitating compliance and speeding up shipment clearance. Many CHEMEXCIL members have actively participated in the LabSetu launch session held on November 7, 2025, marking a critical step towards modernizing India's export infrastructure.

CHEMEXCIL continues to engage with the Ministry of Commerce and Industries, customs authorities, and other stakeholders to align policies and practices that encourage sustainability, competitiveness, and inclusivity in chemical exports. The adoption of green chemistry principles and eco-friendly manufacturing remains an imminent priority for the Council, as global buyers increasingly demand sustainable products that meet stringent environmental standards. We are dedicated to advancing our exporters' preparedness for these demanding expectations by facilitating learning platforms and regulatory updates.

Our ongoing partnerships with financial institutions, testing agencies, and trade bodies reaffirm our holistic approach to export promotion. These collaborations support MSMEs and emerging exporters through tailored advisory services, risk management tools, and market intelligence, enabling them to compete globally on an even footing.

As we look toward 2026, CHEMEXCIL remains steadfast in our mission to deliver value-driven services, create an enabling export ecosystem, and elevate the stature of India's chemical industry worldwide. We encourage all members to actively participate in our upcoming events and leverage the opportunities extended by CHEMEXCIL's initiatives to maximize their growth and global reach.

In closing, I extend my sincere appreciation to our exporters, government partners, and stakeholders for their continued trust and cooperation. Together, we can achieve sustainable success and position India as a global leader in the chemical exports arena.

Warm regards,

Raghuveer Kini
Director General, CHEMEXCIL

The Trade and Economic Partnership Agreement (TEPA) between India and the European Free Trade Association (EFTA) states; Iceland, Liechtenstein, Norway, and Switzerland, represents a significant milestone in India's trade diplomacy. Signed in March 2024 and entering into force on October 1, 2025, TEPA aims to boost bilateral trade, investment, and economic cooperation by reducing tariffs on a wide range of goods and services. One of the standout elements of this agreement is its Rules of Origin (RoO) framework, outlined in Chapter 3 of the agreement. RoO are the criteria used to determine the national source of a product, ensuring that only goods genuinely originating from the partner countries benefit from preferential tariffs.

What makes TEPA's RoO particularly unique compared to many of India's other Free Trade Agreements (FTAs), such as those with ASEAN, Japan, Korea, Australia, or the UAE, is its emphasis on flexibility, trader-friendliness, and operational efficiency. Traditional Indian FTAs often feature rigid, bureaucratic RoO that prioritize strict compliance over ease of use, leading to higher administrative burdens and underutilization of preferences. In contrast, TEPA draws inspiration from modern, business-oriented models (similar to those in EU or EFTA's own agreements), incorporating innovative provisions that reduce compliance costs, enhance supply chain flexibility, and provide robust safeguards. This article delves into these unique aspects, salient features, and their benefits for Indian traders, based on the agreement's text. Where relevant, I've integrated explanations of how these features align with and are influenced by international standards, particularly Annex K of the Revised Kyoto Convention (RKC), which provides a global framework for simplifying and harmonizing RoO procedures. India's accession to the RKC in 2019 has driven domestic reforms that underpin TEPA's progressive approach. Additional context includes comparisons to other Indian FTAs, key terms, potential implications for SMEs, and linkages to broader trade facilitation measures.

Unique Features of Rules of Origin in the India-EFTA Trade and Economic Partnership Agreement (TEPA) Compared to Other Indian FTAs

The Trade and Economic Partnership Agreement (TEPA) between India and the European Free Trade Association (EFTA) states; Iceland, Liechtenstein, Norway, and Switzerland, represents a significant milestone in India's trade

Influence of International Standards- WCO's Annex K of the Revised Kyoto Convention (RKC)

Before diving into TEPA's specifics, it's worth noting the foundational role of Annex K of the RKC in shaping these RoO innovations. The RKC, administered by the World Customs Organization (WCO), sets global benchmarks for customs procedures, with Annex K specifically addressing RoO for preferential and non-preferential trade. It emphasizes simplification, transparency, minimal documentation, and efficient verification to facilitate trade while curbing fraud.

Although TEPA does not explicitly cite Annex K, its provisions are deeply aligned with RKC principles, such as diverse proof options, cumulation, time-bound verifications, and de-minimis tolerances. This integration stems from India's RKC commitments, reflected in domestic tools like CAROTAR 2020 and the 2025 "Proof of Origin" framework (effective March 18, 2025), which mandate risk-based audits and digital submissions. EFTA states, all RKC parties, likely influenced these features during negotiations. As RKC Annex K revisions (ongoing since 2018, targeting 2026) progress, TEPA's RoO Sub-Committee could incorporate updates, ensuring adaptability. This RKC backbone makes TEPA's RoO not just innovative but globally harmonized, boosting predictability for Indian traders in international supply chains.

Unique Features of TEPA's RoO Compared to Other Indian FTAs

TEPA's RoO stand out for their multifaceted approach to proof of origin, cumulation, logistics, and verification—elements that are either absent or less comprehensive in most of India's prior FTAs. For instance, agreements like the India-ASEAN FTA or India-Korea CEPA typically rely on a single or dual proof mechanism, often requiring mandatory certification by designated authorities, which can delay shipments and increase costs. TEPA, however, introduces a more diverse and user-centric system, drawing from RKC's emphasis on flexibility and minimal burdens.

1. Four Co-Existing Proof-of-Origin Pathways (Rare in India's FTAs)

Unlike the majority of Indian FTAs, which limit

options to one or two methods (e.g., agency-issued Certificates of Origin in India-Japan EPA), TEPA allows four parallel pathways for proving origin, valid for 12 months each. This multiplicity reduces dependency on any single system and accommodates different exporter profiles, from large corporations to small enterprises. Echoing RKC Annex K's promotion of diverse, low-documentation proofs (Standards 4-6), including self-certification for low-risk cases, the pathways are:

1. **EFTA Origin Declaration by Approved Exporter:** Exporters authorized under EFTA's system can self-declare origin on commercial documents like invoices. This is similar to self-certification schemes in advanced FTAs but is streamlined for EFTA exporters.
2. **EFTA EUR.1 Movement Certificate:** A traditional certificate issued by EFTA customs authorities, akin to those used in EU trade deals, providing a formal endorsement for compliance.
3. **India Agency-Issued Certificate of Origin:** Issued by designated Indian bodies (e.g., Export Inspection Council or Chambers of Commerce), this aligns with standard practices in other Indian FTAs but co-exists with alternatives.
4. **Self-Declared Certificate of Origin by Indian Exporters:** Indian exporters can self-certify origin, a feature that's emerging in newer Indian agreements like India-Mauritius CECPA but remains rare overall. This empowers exporters to bypass third-party certification, speeding up processes.

This quartet is unprecedented in India's FTA landscape, offering redundancy and choice that minimize bottlenecks. An additional relevant point: TEPA encourages digital submission of these proofs, aligning with India's Digital Public Infrastructure initiatives like DigiLocker and RKC's push for modernization, which could further reduce paperwork, a forward-looking element missing in older FTAs.

2. Diagonal Accumulation Across All Parties

TEPA permits "diagonal cumulation," where inputs (materials or processing) from any EFTA state or India can count toward the originating status of the final product, regardless of where the last substantial transformation occurs. This is a step up from the bilateral cumulation common in FTAs

like India-UAE CEPA, where cumulation is limited to the two direct parties. Diagonal cumulation creates regional value chains, allowing Indian manufacturers to source components from, say, Swiss precision engineering firms and Norwegian raw materials, treating them as "originating." This provision is particularly unique as it's not standard in India's Asian-focused FTAs, which often lack such broad integration due to geopolitical sensitivities. It aligns with RKC Annex K's support for cumulation (Standard 7) to accommodate global supply chains.

3. Explicit Permission for Non-Party Invoicing

In a trader-friendly move, TEPA allows invoices issued by third-country entities (non-parties) without invalidating the origin claim, as long as the goods meet RoO criteria. This contrasts with stricter rules in agreements like India-Australia ECTA, where invoices must typically come from the exporting party to avoid fraud risks. By permitting non-party invoicing, TEPA accommodates global trading practices, such as when a multinational headquartered outside the parties handles billing, consistent with RKC's tolerance for third-country elements if non-manipulation is proven.

4. Flexible Direct Transport Rules

TEPA's direct transport provisions allow goods to transit through or be warehoused in third countries without losing preferential status, requiring only simple evidence of non-manipulation (e.g., seals or documentation). This eases global logistics compared to rigid "no-transit" clauses in some older FTAs like India-Sri Lanka FTA, where any third-country involvement could disqualify preferences. An added nuance: TEPA specifies that splitting consignments during transit is permissible if documented, enhancing flexibility for containerized shipping, a detail that supports India's growing role in international supply chains and reflects RKC's anti-fraud controls with trader benefits.

5. Trader-Friendly Verification Service Level Agreements (SLAs)

Verification processes in TEPA are time-bound, authenticity checks must be confirmed within 45 working days, and full verifications concluded within 10 months. This predictability is a rarity in Indian FTAs, where timelines are often vague or extended (e.g., no fixed SLAs in India-ASEAN FTA), leading to prolonged disputes. TEPA also includes a structured denial and appeal framework, ensuring

transparency, directly operationalizing RKC Annex K's mandates for timely cooperation and risk-based audits (Standards 9-11).

6. Accounting Segregation for Fungible Materials

Exporters can use inventory management methods (e.g., FIFO, average costing) instead of physical segregation for identical or interchangeable materials. This provision, absent in many Indian FTAs, reduces storage costs and operational complexity for industries like chemicals or textiles, in line with RKC's support for practical inventory methods (Standard 5).

7. Steel Safeguard with "Melt and Pour" Requirement

Several Product-Specific Rules (PSRs) mandate that steel products must be melted and poured within the parties to qualify, curbing trans-shipment from non-parties (e.g., China). This safeguard is tailored to protect sensitive sectors, unlike broader PSRs in FTAs like India-Korea, and benefits Indian steel mills by ensuring fair competition, balancing RKC's facilitation with fraud prevention.

8. PSR Valuation Flexibility

When PSRs use ex-works price, exporters can opt for FOB valuation with a 5 %-point adjustment to the Value of Non-Originating Materials (VNM) threshold. This adaptability addresses pricing variances and is more lenient than fixed valuation methods in other FTAs, supporting RKC's emphasis on flexibility.

Salient RoO Features in a Nutshell

Beyond the unique elements, TEPA includes standard yet well-implemented features that enhance usability, many of which are RKC-aligned:

- (a) De-Minimis Tolerance: Up to 10% of FOB/ex-works value for non-originating materials, capped by PSRs—higher than the 7-8% in some FTAs like India-Japan, per RKC tolerances.
- (b) Import at Claim, File Proof Later: Claims can be made at import, with proofs submitted later per domestic laws, reducing entry delays.
- (c) Low-Value/Personal-Use Waivers: Exemptions for small shipments or personal items, promoting e-commerce.

- (d) Record-Keeping: Exporters and importers must retain documents for 5 years, aligning with global standards (RKC Standard 8).
- (e) Transit/Start-Up Relief: Goods in transit at entry-into-force can claim preferences retroactively within 9 months, easing transition—a provision not always present in other FTAs.
- (f) Governance: A Sub-Committee on RoO meets at least biennially to issue guidelines, providing ongoing support and adaptability, mirroring RKC's call for customs dialogue.

An additional relevant feature: TEPA integrates with the WTO Trade Facilitation Agreement, allowing for advance rulings on origin, which Indian customs can issue to provide pre-shipment certainty, boosting confidence for exporters and amplifying RKC effects.

Why These Features Benefit Indian Traders

TEPA's RoO, bolstered by RKC principles, are designed to lower barriers and maximize utilization rates, which hover around 30-40% in many Indian FTAs due to complexity.

- i. Lower Compliance Friction and Faster Shipments: Multiple proof options, post-import proof submission, and non-party invoicing streamline operations, potentially cutting clearance times by 20-30% compared to rigid FTAs.
- ii. Wider Sourcing Flexibility: Diagonal accumulation, de-minimis, and accounting segregation allow cost-effective sourcing, benefiting SMEs in sectors like electronics and pharmaceuticals.
- iii. Operational Predictability: Defined SLAs, appeals, and the sub-committee minimize disputes and provide a forum for clarifications.
- iv. Sector Safeguards: The "melt and pour" rule stabilizes steel trade, protecting domestic industries while enabling compliant exports.

Overall, these elements could increase India's exports to EFTA (projected to reach \$100 billion in 15 years) by making preferences more accessible. For SMEs, which form 90% of Indian exporters, the self-declaration, waivers, and RKC-driven digital tools are game-changers, reducing reliance on intermediaries.

SUPRIYA LIFESCIENCE LTD.

Supriya Lifescience Ltd. is a 37-year-old generic manufacturer headquartered in Mumbai. API manufacturing facility is based in Lote Parshuram, Chiplun and a new FDF facility is coming up in Ambernath. Its success is built on a seamless integration of design, innovation, and execution. The company's cutting-edge production facilities, together with its global reach, exemplify proficiency in API creation adapted to specific customer requirements.

Facility Accreditations: 3 times USFDA, 2 times EUGMP/EDQM, Health Canada, Cofepris, Anvisa, KFDA, NMPA, PMDA, TGA

Our products and services are spread across generic Active Pharmaceutical Ingredients (API) being supplied to more than 120 countries across the globe. Our core business is driven by ethical values and EHS Standards. We leverage our R&D expertise along with manufacturing strengths to meet our customers' requirements. Our focus is to develop APIs, FDFs, and Intermediates for both Innovators, Generic companies and we also partner exclusively as CMO.

Anti Histamines: Chlorpheniramine Maleate, Pheniramine Maleate, Mepyramine Maleate, Dexchlorpheniramine Maleate, Brompheniramine Maleate, Dexbrompheniramine Maleate.

Analgesics/ Anti-pyretic, Anesthetic: Ketamine Hydrochloride, Esketamine Hydrochloride, Tramadol Hydrochloride, Sevoflurane, Midazolam, Midazolam Hydrochloride, Midazolam Maleate

Vitamins: Riboflavin-5-Phosphate Sodium, Methylcobalamin, Hydroxocobalamin Base, Hydroxocobalamin Acetate, Hydroxocobalamin Hydrochloride, Hydroxocobalamin Sulphate

Decongestant: Dextromethorphan Hydrobromide

Hemorreologic Agent: Pentoxyfylline

Anti-Allergic: Cetirizine Dihydrochloride, Diphenhydramine Hydrochloride.

Anti- Gout: Allopurinol.

Products under pipeline: Lisdexamfetamine, Iohexol, Semaglutide, Liraglutide, Isoflurane, Desflurane

Contact Details for Trade Inquiries:

207/208, Udyog Bhavan, Sonawala Road, Goregaon (East), Mumbai - 400 063, Maharashtra, India

TRADE PROMOTION ACTIVITIES & CAPACITY BUILDING INITIATIVES

1. AsianChemicalsForum2025 on 9th October 2025

Dr. Satish Wagh, Chairman, CHEMEXCIL, addressed the AsianChemicalsForum2025 as Guest of Honour, highlighting India's growing role in sustainable chemical trade. He emphasized regulatory preparedness, ESG-driven growth & India's march toward a robust IndiaREACH framework.

Mr. Raghuvir Kini, Director General, CHEMEXCIL, shared insights at the CEO Roundtable during AsianChemicalsForum2025, highlighting the role of CHEMEXCIL and the impact of recent USA Tariffs on Indian chemical exports.

Key publications Compendium of Global Chemicals Regulation 2025-26 and GHS Compliance 2025 were launched today at #AsianChemicalsForum2025. Dr. Satish Wagh, Chairman CHEMEXCIL, joined dignitaries in unveiling these landmark resources for global chemical compliance.

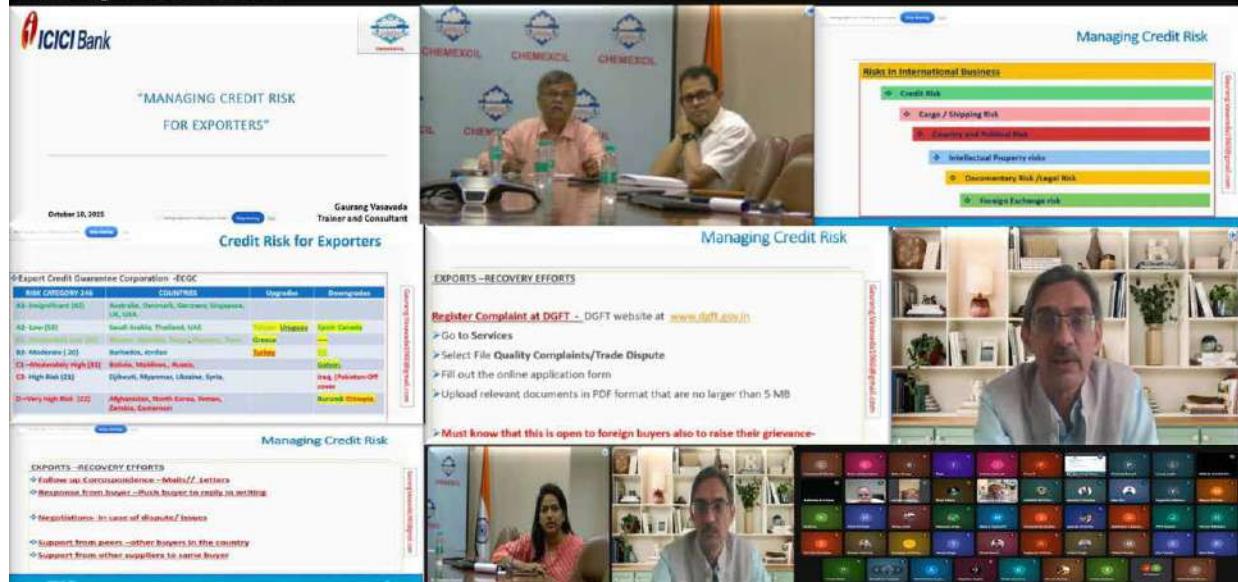

2. Webinar: Managing Credit Risk for Exporters – How Credit Risk Insurance Helps" on 10th October 2025

CHEMEXCIL in collaboration with ICICI Bank, successfully organised a Webinar on "Managing Credit Risk for Exporters – How Credit Risk Insurance Helps" on 10th October, 2025.

The session was attended by 70 participants. The discussion was highly informative and beneficial particularly in understanding the role of credit risk insurance in safeguarding export transactions and enhancing financial resilience.

CHEMEXCIL in collaboration with ICICI Bank, successfully organised a Webinar on "Managing Credit Risk for Exporters - How Credit Risk Insurance Helps" on 10th October 2025 at 2:00 pm. The session was attended by 70 participants and they found the discussion to be highly informative and beneficial, particularly in understanding the role of credit risk insurance in safeguarding export transactions and enhancing financial resilience.

The screenshot shows the 'Managing Credit Risk for Exporters' webinar interface. It features the ICICI Bank logo, the session title 'MANAGING CREDIT RISK FOR EXPORTERS', and a video of two speakers. The video shows Gaurang Vasavada, Trainer and Consultant, and another speaker. The interface includes a sidebar with 'Credit Risk for Exporters' and a 'Managing Credit Risk' section. The 'Credit Risk for Exporters' section contains a table of 'Risk COUNTRY 246' with columns for 'RISK', 'COUNTRY', 'Upgrades', and 'Downgrades'. The 'Managing Credit Risk' section includes a 'Risks in International Business' chart and a 'EXPORTS - RECOVERY EFFORTS' section with a 'Register Complaint at DGFT' link and a video of a speaker.

3. Webinar on "How to Reduce Risks in Exports" on 14th October 2025

As part of its ongoing capacity building initiatives, CHEMEXCIL, in collaboration with Mr. Mihir Shah of M/s. Universal Connections LLP, organized a webinar on "How to Reduce Risks in Exports" on 14th October 2025. The event was attended by 70 participants and was deemed highly informative and operationally relevant, offering structured approaches to risk management in international trade.

The screenshot shows the 'How to reduce Risks in Exports' webinar interface. It features a video of Mr. Mihir Shah and a grid of various export-related websites and resources. The websites include SCOMET, EDPMs & IDPMs, and various international trade platforms. The interface also includes a 'Selection of Product' section and a 'Selection of Export Market' section.

4. Webinar on Understanding US OFAC Sanctions & OFAC List on 17th October 2025

CHEMEXCIL, in collaboration with Mr. Sudhakar Kasture, Director of EXIM Institute, successfully organized a webinar on "Understanding US OFAC Sanctions & OFAC List".

The session drew participation from 80 attendees and was highly appreciated. Participants found the insights shared to be extremely beneficial in navigating the compliance complexities of international trade, particularly in relation to U.S. sanctions and regulatory frameworks.

CHEMEXCIL, in collaboration with Mr. Sudhakar Kasture, Director of EXIM Institute, successfully organized a webinar on "Understanding US OFAC Sanctions & OFAC List." The session drew active participation from 80 attendees and was highly appreciated for its depth, clarity, and practical relevance. Participants found the insights shared to be extremely beneficial in navigating the compliance complexities of international trade, particularly in relation to U.S. sanctions and regulatory frameworks.

USA Sanctions on OFAC Countries

An "OFAC country" is a nation or region targeted by the U.S. government with economic and trade sanctions, which are administered and enforced by the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC).

The sanctions are implemented to enhance national security and foreign policy goals by restricting trade, blocking assets, and freezing financial assets.

OFAC Sanctions

On 30th October 2025, the U.S. Department of State and the Office of Foreign Assets Control (OFAC) imposed sanctions on over 100 entities and individuals, including major oil companies and their affiliates, and imposed a ban on the import of Iranian oil, liquefied petroleum gas (LPG), and petrochemicals. These are considered as key activities threatening U.S. interests.

Key Trade Rules and Restrictions

Commodity and Banking Requirements

Using U.S. dollar (USD) or U.S.-related banking systems for transactions involving OFAC-impacted countries are now prohibited.

Key Compliance and Mitigation

Many U.S.-EU based firms and shipping lines refuse to do business with India, as Indian importers must pay higher fees, insurance, and freight. Resources are not under OFAC restrictions.

Strategic Recommendations for Indian Exporters

Compliance Requirements

Compliance Precautions for Indian Exporters

5. Webinar on Mastering EDPMS & IDPMS: Compliance, Reconciliation & Risk-Free Trade Operations from 30th October 2025 to 29th October, 2025

CHEMEXCIL, in collaboration with Sriya Enterprise, successfully conducted a webinar on "Mastering EDPMS & IDPMS: Compliance, Reconciliation & Risk-Free Trade Operations" on 30th October 2025 with active participation from 210+ exporters and stakeholders!

CHEMEXCIL, in collaboration with Sriya Enterprise, organized a webinar on "Mastering EDPMS & IDPMS: Compliance, Reconciliation & Risk-Free Trade Operations," which saw active participation from over 210 attendees and received highly positive feedback.

6. Workshop on Trade Compliance – From Authorized Economic Operator to SCOMET Compliance & ChemIndia Portal on 4th November, 2025.

CHEMEXCIL successfully organized a Workshop on Trade Compliance – From Authorized Economic Operator to SCOMET Compliance & ChemIndia Portal on 4th November 2025 at *The Park Hotel, Kolkata*.

The event was graced by eminent dignitaries - Shri R. Srinivas Naik, *Chief Commissioner of Customs, Kolkata* as the Chief Guest, and Shri Vishnu Kant, *Joint Director General of Foreign Trade, RA-Kolkata* as the Guest of Honour. Shri Gyanendra Pratap Singh, *Director, Department of Chemicals & Petrochemicals (DCPC)*, and senior

officials from the Narcotics Control Bureau, Kolkata also participated and shared their valuable insights.

The technical session was led by Mr. Joshua Ebenezer, *Facilitator, Nucov Facilitrade*, who elaborated on the nuances of AEO and SCOMET compliance.

The workshop witnessed an enthusiastic response with over 75 participants from the chemical industry and export community actively engaging in discussions and sharing their experiences. The interactive format enabled participants to gain a deeper understanding of evolving trade regulations and compliance requirements.

The event concluded with a lively Q&A session, reflecting the participants' keen interest and commitment to strengthening India's export compliance ecosystem.

7. KHIMIA 2025

As an export promotion activity for the year 2025-26 Chemexcil has participated in KHIMIA 2025 from 10th – 13th November, 2025 at Expo Centre Timiryazev Center, Hall 16, Moscow, Russia. Council has proposed the said event under MAI scheme. The approval for the same is awaited from Department of Commerce, Govt. of India.

Khimia 2025 is one of the most attractive annual international events in Moscow, Russia. Khimia international exhibition was launched in 1965 and successfully celebrating 60th years is considered to be the most prestigious event for chemical industry in Russia. The event brings together all sectors of chemical industry such as chemical manufacturers, service providers, suppliers of the latest equipment, materials, technologies, and consumers from different nations. The focus areas of the exhibition included industry patrons from Chemical and petrochemicals, Agro chemicals, Oil and gas, Pharmaceutical, medicine, Textile etc.

Russia is an important market especially for Inorganics, Organics & Agro Chemicals, Dyes & Dye Intermediates and Cosmetics sector. The main objectives to organize Indian Pavilion Meet were:-

- Focused B2B meetings with stakeholders of local chemical industry.
- Promotion of Indian Chemical exports in Russia.
- Establishment of networking opportunities for mutual cooperation in the Chemical sector.
- Exploring the possibility of expanding two-way trade.

The 26th edition of KHIMIA international exhibition was a perfect platform for Indian companies to interact and connect with the Russian chemical industry and explore opportunities of trade as the market is currently looking for potential and reliable suppliers amid current crisis due to sanctions from European nations.

The Inauguration Ceremony was organized on 10th November, 2025 at 10.00 hrs. (Russian Time). The Indian Pavilion was inaugurated by **Mr. Sergei Selivanov, Deputy General Director of Moscow exhibition center along with Shri Prafulla Walhe, Director, CHEMEXCIL**.

Later, Mr. Sergei Selivanov, Deputy General Director of Moscow exhibition center & Ms. Elena Kasatkina, Project Manager, had visited the Indian Pavilion and met with participants. The members-exporters were happy to interact with the visiting dignitaries.

In total 16 member-exporters from CHEMEXCIL participated in this Exhibition with total area of 120 sq. mtr. The 4 days exhibition witnessed over 17,728 visitors from 46 nations exploring 20,000 + sqm of exhibition area showcased by 500 exhibitors from around the world.

8. Webinar on “Rupee Payment Mechanism: An Emerging Way of International Business & Growth” on 12th November, 2025.

CHEMEXCIL, in collaboration with ICICI Bank, hosted a webinar on “Rupee Payment Mechanism: An Emerging Way of International Business & Growth” on 12th Nov 2025 from 3.00 pm – 5.00 pm. Over 90 member-exporters joined to gain insights from Mr. Anand Mirani, Director and Lead Advisor at Simplus Exim & Corporate Advisory LLP on Rupee Trade, SRVA & FEMA guidelines.

9. Webinar on Overview of Agrochemicals Registration in EU, UK, Turkey and India" on 20 Nov 2025.

CHEMEXCIL, in collaboration with GPC, hosted a webinar on Overview of Agrochemicals Registration in EU, UK, Turkey and India" on 20th November, 2025. Over 40 member-exporters joined to gain insights on the registration process, fees, data requirements etc and found this webinar to be interactive.

Overview of Pesticide Regulations in Europe, UK, Turkey and India

Mr. Kishorekant Patel, M.Pharm
Senior Scientific Officer – Registration and Testing
Kishorekant@au-life.com

Data Requirements

- All registrants must submit the following information and product information products to support risk assessment.
- Data Requirements for Active Substances:**
 - Identity & manufacturing process
 - Physical and chemical properties
 - Analysis of chemical
 - Toxicological profile
 - Biological studies & environmental toxicity assessment
 - Environmental fate & behavior (both degradability, groundwater movement)
 - Contamination limits (limits, aquatic organisms, soil and groundwater)
 - Efficiency data
- Data Requirements for Pesticide Formulations:**
 - Product description
 - Useful life & stability
 - Toxicology of formulation
 - Storage & handling requirements
 - Information on uses from product use
 - Other information (e.g. use conditions, compatibility & other uses)

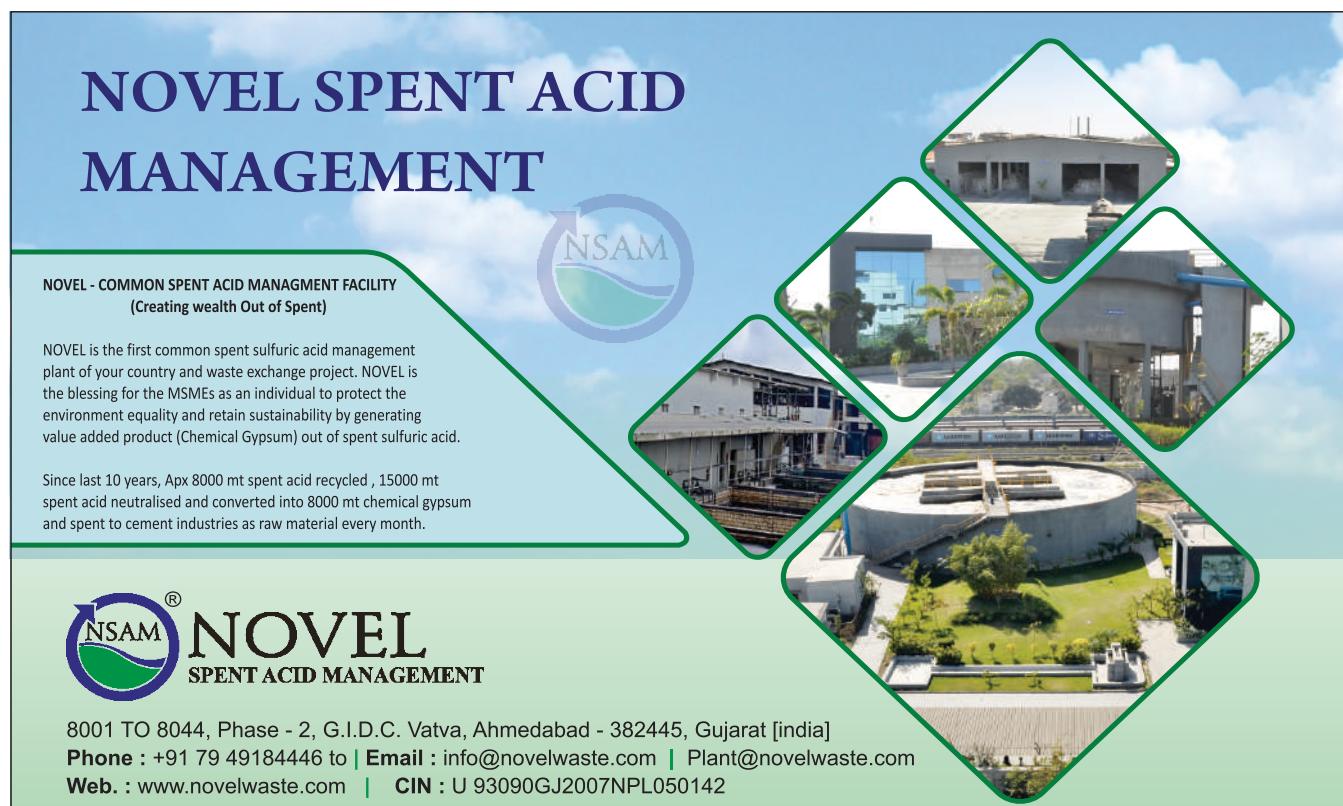

Important points to be considered in Turkey Pesticide Regulation

- Turkey published its MRL list effective 7 January 2025 (Official Gazette No. 22775) with a three-month compliance window, affecting imports, residue limits, and product compliance requirements.
- Ongoing alignment with EU frameworks and chemical regulation regulations under ECOS (Turkey REACH, impact technical material regulation, formulation components and documentation requirements).
- Registrants must verify local GMDR requirements, MRL, updates, and chemical regulation directives before product submissions or import.

Registration categories

No.	Category	Description
1	Regulatory Registration (Art. 2(5))	Granted for a new pesticide registration.
2	Post-Approval Registration (Art. 2(3))	Temporary approval, typically valid for 2 years.
3	"No-Test" Registration (Art. 2(6))	A temporary registration allowing an already approved ECIS molecule to modify its uses, change its company address, modifications in packaging use, certificate transfers, and other updates.
4	Establishment Cases	

Pesticide Registration Overview

NOVEL SPENT ACID MANAGEMENT

NOVEL - COMMON SPENT ACID MANAGEMENT FACILITY
(Creating wealth Out of Spent)

NOVEL is the first common spent sulfuric acid management plant of your country and waste exchange project. NOVEL is the blessing for the MSMEs as an individual to protect the environment equality and retain sustainability by generating value added product (Chemical Gypsum) out of spent sulfuric acid.

Since last 10 years, Apx 8000 mt spent acid recycled, 15000 mt spent acid neutralised and converted into 8000 mt chemical gypsum and spent to cement industries as raw material every month.

IMPORTANT NOTIFICATION & CIRCULAR

Notification Circular 1

EPC:LIC:DGFT:PN-51:ARR:2025-26: 874

7th October 2025.

To
ALL MEMBERS OF THE COUNCIL
(Important)

Sub: DGFT: Public Notice on extension of the last date for filing Annual RoDTEP Returns (ARR) for financial year 2023-24 regarding

Dear Sir/Madam

As you are aware that the ARR submission is mandatory for exporters who have received RoDTEP benefits of Rs. 1 crore or more in FY 2023-24.

The office of Directorate General of Foreign Trade (DGFT) has issued a Public Notice No. 24/2025-26 dated 3rd October 2025 on extension of the last date for filing Annual RoDTEP Returns (ARR) for financial year 2023-24.

The Annual RoDTEP Return (ARR) for FY 2023-24, originally due for online submission by 30th September 2025, has now been extended to **30th November 2025**.

The detailed public notice can be viewed on below link-<https://content.dgft.gov.in/Website/dgftprod/6f7fe86c-aa65-4db0-902b-681d9d85dca0/Public%20Notice%20No.%202024%20Eng.pdf>

Exporters are advised to ensure timely submission of ARR to remain compliant and avoid any penalties.

Thanks and Regards

Raghuveer Kini
Director General
CHEMEXCIL

Sub: DGFT Trade Notice Pilot launch of “Bharat Aayat Niryat Lab Setu” –reg

Dear Members,

O/o the Directorate General of Foreign Trade (DGFT) has issued a Trade Notice No. 14/2025-26 dated 27th October 2025 on Pilot launch of “Bharat Aayat Niryat Lab Setu. A digital initiative aims to bridge the gap between testing laboratories and the trade community. **This platform (<https://www.trade.gov.in/pages/labsetu>) enables**

exporters and importers to identify, connect, and access accredited labs for testing, certification, and compliance purposes through an integrated online interface.

The Objective of this initiative is to digitally link testing laboratories across India with exporters and importers for easy access to accredited testing facilities, enhance transparency and reduces delays in quality certification and compliance.

The portal will list labs accredited by NABL (National Accreditation Board for Testing and Calibration Laboratories) and other approved bodies. Exporters can search labs by product category, location, or test type, and submit testing requests online.

Registered IEC holders can access the BAN Lab Setu via the DGFT's single sign-on (SSO) login. This will enable seamless coordination between exporters, labs, and testing agencies.

The pilot phase will include selected labs and exporters for initial rollout. The Pilot Phase will commence from 4th November 2025. Exporters & Importers will be able to submit applications for product and commodity from 11th November 2025. The Feedback from stakeholders will be used to refine the system before a nationwide launch.

This is the part of DGFT's broader initiative to improve ease of doing business, reduce testing turnaround times, and enhance export competitiveness.

The Bharat Aayat Niryat Lab Setu is an important step toward digital transformation in India's trade ecosystem empowering MSMEs and exporters to achieve global quality benchmarks with ease and efficiency.

30th October 2025

To
All Members of the Council

Sub: Revision of exporter eligibility criteria for registration on “Source from India” service of Trade Connect e Platform

Dear Members,

O/o the Directorate General of Foreign Trade (DGFT) has issued a Trade Notice No. 15/2025-26 dated 29th October 2025 on revision of exporter eligibility criteria for registration on “Source from India” service of Trade Connect e Platform.

As per the same :

- The “Source from India” service on Trade Connect was initially rolled out for all Status Holder exporters. It serves as a platform for international buyers to discover Indian exporters by allowing exporters to create microsites showcasing their products and credentials.
- From 1st November 2025, the eligibility to create microsites on “Source from India” is expanded. Now, in addition

to Status Holders, all exporters with valid Importer Exporter Codes (IECs) that have realized export earnings of at least USD 100,000 in any one of the previous three financial years will qualify. IECs must not be in a DEL (delisted) status.

- The DGFT eBRC (Electronic Bank Realization Certificate) database will be the sole source for verifying export realizations to determine eligibility based on export value in a financial year.
- Registered users linked to eligible IECs on Trade Connect will automatically get the option to create their "Source from India" microsite on their dashboard.
- Indian diplomatic missions abroad have been advised to use "Source from India" as a reference for sourcing requests from foreign buyers.
- Exporters are requested to go through the Annexure of this notice which indicates the Steps for registration for Source from India on Trade Connect ePlatform and benefit from the same

Copy of this trade notice is enclosed for your ready reference.

The detailed trade notice can also be viewed on <https://content.dgft.gov.in/Website/dgftprod/30afdb17-2b35-4850-a07e-c4aa0b3350ac/Trade%20Notice%202015%202025-26%20on%20Source%20from%20India%20eligibility%20change.pdf>

Sub: Environmental Clearance-Rationalizing the requirement of Green Belt/Green Cover for Industrial Estates/Parks and Individual Industries based on pollution potential: Regarding

Dear Members,

We are in receipt of office memorandum F.No. IA3-22/14/2025-IA.III (E-275538) dated 29th October 2025 issued by Ministry of Environment, Forest and Climate Change, Impact Assessment Division, Govt. of India on rationalizing the requirement of green Belt/green cover for industrial estates/parks and individual industries based on pollution potential. Copy of the same is enclosed for your kind perusal.

As you are aware that under the EIA Notification, 2006, prior Environmental Clearance (EC) is mandatory for certain projects, with one mandatory condition for **development of a green belt/green cover** within the project area.

Initially, standardized EC conditions (OMs dated 09.08.2018, 04.01.2019, 08.01.2019) prescribed a **33% green belt for most sectors**. Later, as per OM dated 31.10.2019, this requirement was enhanced to **40% for Red and Orange Category industries located in Critically Polluted Areas (CPAs)** and Severely Polluted Areas (SPAs), following an NGT order.

The CPCB guidelines (March 2000) provided technical specifications for green belt design and plant species but **lack methods for calculating green belt size based on pollution potential (Load)**. Subsequently, the OM dated 27.10.2020 specified that Industrial Estates, SEZs, EPZs, Biotech Parks, and similar complexes must maintain an **overall 33% green area**, with shared responsibility among individual units.

The matter was represented by **CHEMEXCIL** number of times to the department, accordingly Ministry of Environment, Forest and Climate Change, Impact Assessment Division has now rationalized the green belt requirements across industries and balance land use with environmental needs, a committee was formed. Based on its report and the Expert Advisory Committee's recommendations, the Ministry **decided to revise and implement new criteria for green belt/green cover development** in Industrial Estates/Parks and individual industries, superseding the earlier OM of 27.10.2020.

The following norms shall be adhered to while developing green belts in the new green field industrial estates. Industrial Estates now have two types of requirements viz.

- **Green Belt in Industrial Estates/Parks (New Green Field)**
- **Green Belt for Individual Industrial Units (Outside Industrial Estates)**

A. Green Belt in Industrial Estates/Parks (New Green Field)

The following norms shall be adhered to while developing green belts in the new green field industrial estates

Category	Minimum Belt Requirement
Red	15%
Orange	10%
Green	Optional with no mandatory requirement
White	

The green belt should be located as close as possible to the pollution source. The proponents may undertake plantation higher than minimum criteria mentioned above depending upon availability of in-situ and ex-situ area and resources.

B. Green belt/green cover in Individual Industrial Units outside Industrial Estates

Category	Minimum Green Belt Requirement	
	Predominantly Air Polluting Sectors (PIA?=80 / PIA?=55 / PIA>25)	Other Sectors
Red	25% (PIA>80)	20%
Orange	20% (PIA>55)	15%
Green	10% (PIA>25)	Optional with no mandatory requirement
White	Optional with no mandatory requirement	

Generic directions with regard to developing green belt/green cover

- For brownfield projects undergoing modernization, expansion, or product mix changes, the **Expert Appraisal Committees (EACs)** will determine minimum green belt requirements on a case-by-case basis, considering on-site conditions.
- These criteria will apply prospectively to **both new EC applications and those currently under review**.
- Beyond the prescribed minimum, project proponents may also undertake ex-situ plantation in collaboration with State Forest Departments, Urban Local Bodies, or other government agencies under initiatives like Nagar Van or Compensatory Afforestation. They must ensure watering, protection, and maintenance of plantations for at least five years.

- For green and white category industries located within Industrial Estates/Parks, and for white category and most green category industries located outside such estates, green belt development is optional (except for high-pollution green category units with PLI=25).

Green belt norms in case of Industrial Estates and Individual Industrial units in Critically Polluted Areas (CPA) and Severely Polluted Areas (SPA)

A minimum of 40% green belt shall be developed in red and orange category units located in Critically Polluted Areas (CPA) and Severely Polluted Areas (SPA). This is in accordance with the Mechanism for Environmental Management of Critically and Severely Polluted Areas and in compliance with the Hon'ble NGT order dated 23.08.2019 in the matter of O.A. No. 1038/2018 and the OM dated 31st October 2019.

Directions for enhancing the Effectiveness of Green Belts

1. Selection of Species

- Prefer native and pollution-tolerant species capable of absorbing dust, gaseous pollutants, and noise.
- Use a mix of evergreen and deciduous plants to maintain effectiveness throughout the year.

2. Design and Structure

- Develop a multi-tier plantation system with tall trees, shrubs, and ground cover.
- Ensure sufficient width and density of the green belt based on site-specific pollution intensity.

3. Orientation and Placement

- Align plantations perpendicular to the prevailing wind direction for maximum pollutant interception.
- Maintain continuous, gap-free green cover along sensitive or exposed boundaries.

4. Soil and Water Management

- Enrich soil with organic matter and maintain proper drainage for healthy plant growth
- Provide reliable irrigation, especially during dry seasons, to sustain vegetation.

5. Maintenance Measures

- Conduct regular pruning, gap-filling, and replanting to preserve density and structure.
- Implement pest and disease management for long-term sustainability.

6. Monitoring and Evaluation

- Monitor air quality, plant health, and biodiversity at regular intervals
- Adjust species selection and management based on monitoring outcomes.

7. Integration with Environmental Planning

- Integrate green belts with water bodies, open spaces, and biodiversity corridors.
- Encourage community involvement and awareness for continued protection and upkeep.

Monitoring mechanism

- Industrial Estates must submit half-yearly green belt status reports to the SPCB/PCC and Integrated Regional Office (IRO) of MoEFCC, detailing canopy coverage, number and species of trees, height, survival rate, etc., along with drone imagery.
- Individual industrial units must also submit half-yearly reports on their green belt areas as part of their environmental statements to the SPCB/PCC, including details on area, tree count, and species.
- The IRO and SPCB/PCC will verify green belt data of industrial estates annually, while SPCB/PCC will randomly verify individual units' data during inspections.

Members are requested to take the note of this important modification

Thanks and Regards

Raghuveer Kini

Sub: Celebration of “Swachhata Pakhwada” (Cleanliness Fortnight) from 1-15 November, 2025

Dear Member-Exporters,

You are aware that ‘Swachh Bharat Mission’ is one of the flagship campaigns of the Hon’ble Prime Minister of India, Shri Narendra Modiji, wherein all Ministries and the organizations coming under it have to participate in promoting cleanliness activities throughout the year. As part of the same, it has been decided to organize Swachhata Pakhwada.

In order to boost and intensify this campaign, as per the directive of the Ministry, we are happy to inform you all that CHEMEXCIL has decided to undertake the following activities along with all of you and the employees of CHEMEXCIL during Swachhata Pakhwada which shall be celebrated from 1-15 November, 2025

1. Mass ‘Swachhta Pledge’ shall be administered to all
2. “Shramdan “as a mass Cleanliness drive will be undertaken by all of us to clean our Offices.
3. All of us have to take initiative to make aware of segregation of recyclable wastes.
4. In addition to undertaking Mass Garbage Removal Drive, all of us have to take initiative to properly disposing of waste material as well as housekeeping.
5. All of us have to take initiative to minimize use of non-degradable substances like plastics, which can be replaced by biodegradable materials.
6. All of us have to take initiative to make clean toilets of your Offices and factories.
7. All of us have to put efforts on the campaign of tree plantation, restoration of water bodies, e-waste management, sanitation awareness, keeping iconic places clean, etc.

We appeal to all of you to promote Green & Clean Belt near your factories, Rain water Harvesting, etc.

Finally, we would like to inform you all that the Council shall use social media (i.e., through Emails, Web uploads, Twitter, etc. as the means of Networking with all of you. Thereafter, it is our earnest request to you to send us your feedback of activities undertaken along with photographs on shalaka@chemexcil.in so as to enable us to inform the same to the Ministry.

In view of the importance of the above, we solicit your co-operation and assistance to make Swachhata Pakhwada a grand success.

Thanking you,

Yours faithfully,
Raghuveer Kini

November 17, 2025

All Members of the Council

Sub: Introduction of the Credit Guarantee Scheme for Exporters (CGSE) by Government of India: Regarding

Dear Members,

As you are aware that The Government of India Cabinet has recently approved Credit Guarantee Scheme for Exporters (CGSE), up to Rs. 20,000 crore collateral-free credit support with 100% credit guarantee through NCGTC (<https://www.pib.gov.in/PressReleasePage.aspx?PRID=2189389>) which will benefit to both MSME & non-MSME exporters resulting in support of liquidity, market diversification, employment, and enhance global competitiveness of Indian exporters

The broad objective is to support Indian exporters to meet their additional working capital requirement to mitigate short-term financial mismatched, and encourage exporters to explore new and emerging markets.

In view of the above CHEMEXCIL is pleased to share the key highlights of the scheme for the benefit of our member exporters. (Copy enclosed)

Background of the Scheme

India's export sector, particularly MSMEs and sector-specific exporters, often faces liquidity constraints due to market fluctuations, delayed payments, and the need to enter new international markets.

To provide relief and ensure uninterrupted export operations, the Government has launched the Credit Guarantee Scheme for Exporters (CGSE).

The scheme provides 100% guarantee coverage for additional credit facilities extended by eligible lending institutions to both direct and indirect exporters. This measure is expected to ease access to credit, reduce financing risks for banks, and enhance the competitiveness of Indian exporters globally.

Features of the CGSE

- Implementing Agency: National Credit Guarantee Trustee Company (NCGTC)
- Eligible Borrowers: Direct and indirect exporters (eligibility criteria to be finalised by the Management Committee of the Scheme)
- Quantum of Support:
 - Up to 20% of sanctioned export working capital limit for direct exporters
 - Up to 20% of working capital limit for indirect exporters
- Maximum Loan Amount: Up to rupees 50 crore per borrower
- Tenor: 4 years (including 1-year moratorium)
- Guarantee Fee: Nil
- Interest Rate: 1% below interest rate applicable on existing facility (as on the date of issue of guidelines)
- Security: Charge on existing securities; no additional collateral required
- Eligible Lending Institutions: Scheduled Commercial Banks, SUCBs, NBFCs (RBI-registered), and specified Financial Institutions
- Validity of Scheme: Upto 31st March 2026 or until guarantees amounting to Rs.20,000/- crore are issued, whichever is earlier.

The detailed operational guidelines will be issued by NCGTC in due course.

Members are requested to review the scheme details, contact their respective banks or lending institutions to understand eligibility and avail benefits

Thanks and Regards

Raghuveer Kini

All Members of the Council

**Sub: Invitation to join INDIAN CHEMICALS AND PETROCHEMICALS CONFERENCE 2025
on 15th October 2025 at New Delhi**

Dear Members,

The Indian Chemical and Petrochemical sector is a cornerstone of the country's manufacturing ecosystem, supplying essential raw materials to critical industries. The government's transformative measures towards building an Atmanirbhar Bharat have further integrated the sector into global value chains, positioning it as a potential manufacturing hub for the world.

In view of above CII is organizing the 7th edition of the Indian Chemicals and Petrochemicals

Conference (ICPC) on Wednesday, 15th October 2025 at following venue

Shangri-La Eros 19, Ashoka Rd, Janpath, Connaught Place, New Delhi, Delhi 110001.

The theme for this year's conference is "Enabling Competitiveness: India's Pathway to Global Leadership."

Shri Piyush Goyal, Hon'ble Minister of Commerce and Industry, GoI has kindly given his consent to deliver the Keynote Address at the Special Plenary Session of the Conference

The Conference will deliberate and present a strategic approach for building a future-ready, sustainable, and competitive industry. A report on *Skilled Workforce Gaps in the Chemicals and Petrochemicals Industry* will also be released during the Conference.

We request members to consider joining us on 15th October 2025 for the **7th edition of the Indian Chemicals and Petrochemicals Conference (ICPC) in New Delhi**.

Your personal presence would add immense value to the overall outcome of the Conference.

Your office may confirm the participation by using the registration link: <https://cam.mycii.in/ORNew/Registration.html?EventId=E000071320>

In case you are pre-occupied on that day, you may kindly nominate your colleague to attend pl.

We hope that you will consider this request favourably and look forward to receiving your kind confirmation above.

Thanks and Regards

To
ALL MEMBERS OF THE COUNCIL

Important Workshop You Are Invited !!!!

Sub: Invitation to join the workshop on Trade Compliance – From Authorized Economic Operator to SCOMET Compliance ChemIndia Portal on 4th November-2025 (Full day) at Kolkata: Regarding

Dear Sir/Madam,

CHEMEXCIL is glad to inform you that we are organizing a full day Capacity Building Workshop to enhance trade facilitation, compliance awareness, and competitiveness of exporters in line with global best practices.

It will cover important topics on Trade compliance and regulatory requirements which are of interest to the Indian Chemical exporting Companies.

Further, you may be aware that the Ministry of Chemicals and Fertilizers has issued a Gazette Notification No. CG-DL-E-27022024-252438 dated 27th February 2024 mandating all registered chemical and petrochemical industries/units in India, except those dealing in specific exempted categories, to submit data on the ChemIndia Web portal (<https://chemindia.chemicals.gov.in/>)

This portal aims to facilitate the collection of comprehensive statistics related to various aspects of the chemical sector, including some characteristics of chemicals. The primary objective of gathering this data is to create an extensive chemical inventory that encompasses all relevant information about the sector.

Hence to create awareness and educate the industry, a presentation on the ChemIndia Portal will also be made during the above workshop.

DETAILS OF WORKSHOP

- **Date:** 4th November 2025 (Tuesday)
- **Venue:** To be intimated shortly
- **Timings:** 10:00AM- 5:00PM (including Lunch)

Topics

1. **Authorised Economic Operator (AEO)**
2. **SCOMET Compliance**
3. **ChemIndia Portal**

- Speaker Details:

- ü Sessions on AEO and SCOMET - Dr. Joshua Ebenezer, Principal Consultant, Nucov FaciliTrade (Customs and Trade Law Experts).
- ü Session on ChemIndia Portal – Senior Official from Department of Chemicals
Moreover, Senior Officers from Customs and the Department of Chemicals & Petrochemicals are expected to grace the occasion and share their insights during this workshop.

Why You Should Attend?

- Gain direct insights from Customs Law firms and DCPC senior officials
- Strengthen compliance framework for your exports
- Understand latest developments in AEO, SCOMET
- Understand data submission requirements on ChemIndia Portal
- Network with industry peers and policy-makers

Who should attend?

- Head/Manager – Logistics & Supply Chain
- Customs & Trade Compliance Manager
- Import/Export compliance officer
- Regulatory Affairs Manager
- Finance/Taxation Manager (for cost-benefit analysis and risk management)
- Compliance Program Lead/Trade Compliance Officer
- Legal Counsel – Trade/Customs
- Security & Risk Management Officer, etc.

We request you to confirm your participation at the earliest and register yourself through the registration link <https://forms.gle/E7N885ArY7JMrffW7>

Please Note: Seats will be limited and registration will be on a first-come-first-served basis.

We look forward to your active participation in making this workshop a grand success!

For Registration & any related queries send us an email at shalini@chemexcil.in & rrokolkata@chemexcil.in .

Sub: Invitation to join free Webinar on Understanding US OFAC Sanctions & OFAC List dated 17th October 2025 regarding

Dear Member,

We wish to inform and invite to a Webinar on **Understanding US OFAC Sanctions and OFAC List** scheduled on 17th October 2025 (Friday) at 11:00 AM.

This session will help members to understand the U.S. Office of Foreign Assets Control (OFAC) regulations, the OFAC Sanctions Lists, and its impact on export and import compliance.

The webinar will provide guidance on how exporters can ensure their international business compliance with U.S. trade laws, an important aspect for maintaining credibility and uninterrupted trade with overseas.

Topics to be covered

- Overview of US OFAC sanctions and its enforcement mechanism
- Understanding the OFAC sanctions lists (SDN, non-SDN, etc.)
- Compliance best practices for Indian exporters
- Impact of non-compliance on international trade and reputation

Faculty

Mr. Sudhakar Kasture,
Director Exim Institute

Webinar Date & Time:

- 17th October 2025 (Friday)
- At 11:00 AM (IST)

Registration:

This webinar is free to attend, but prior registration is mandatory. To register please click on below link

To

All Members of the Council

Sub: Request for Comments on the Data Format for RoDTEP Rates by the RoDTEP Committee: Regarding

Dear Sir/Madam,

CHEMEXCIL is in receipt of communication from the Department on above subject.

As you might have aware that, the Department of Revenue, Ministry of Finance, Government of India has constituted a RoDTEP Committee vide Order No.F.No. CBIC-140602/5/2025-Drawback Section-CBIC dated 1st October 2025 (copy enclosed for your reference ref. Annex A).

The objective of this Committee is to review and update the recommended ceiling rate schedules under the RoDTEP and RoSCTL schemes.

In view of the above, the Committee has adopted a draft data format for reviewing the existing RoDTEP rates. (The format is attached in the Excel sheet as Annexure B.)

Members are requested to go through this format and provide their detailed inputs, comments/suggestions, preferably supported with audited data for the period 01.04.2024 to 31.03.2025, to pw@chemexcil.in with a copy to dg@chemexcil.in on or before 24th October 2025.

This will help us to compile the same and forward it to the RoDTEP Committee for their consideration.

Thanks and regards,

**Raghuveer Kini
Director General**

Sub: Launch of PM GatiShakti Public through Unified Geospatial Interface (UGI): Regarding

Dear Members,

As you might have aware that, the **PM GatiShakti – National Master Plan (NMP)** was launched on 13th October 2021, It has transformed infrastructure planning through an integrated geospatial platform covering more than 57 Central Ministries/Departments and all States/UTs.

To further democratize access to infrastructure and geospatial data, **Hon'ble Minister of Commerce & Industry**, launched '**PM GatiShakti Public**' on 13th October 2025, marking the fourth anniversary of the PM GatiShakti NMP. This initiative reflects the Government's commitment to enhance private sector participation in infrastructure planning and development under the PM GatiShakti framework.

The Department for Promotion of Industry and Internal Trade , in collaboration with BISAG-N, has developed a query-based analytics module on the National Geospatial Data Registry (NGDR) platform. This module provides the private sector and general public with access to geospatial data for project planning and analysis.

Under this mechanism, private entities and individuals can access the query module by signing a Non-Disclosure Agreement (NDA) through a simple two-factor authentication and self-registration process. Currently, nine query modules are available, enabling users to:

- Identify suitable project sites,
- Plan optimal alignments,
- Assess connectivity and nearby social/economic infrastructure, and
- Anticipate clearance and regulatory requirements.

The query-based module is now live and accessible to all private entities at <https://ugi.pmgatishakti.gov.in>

The **concept note and user manual** on the query-based module are attached for your reference and can also be accessed on below link

[.....LINK for PMGATISHAKTI_PUBLIC.pptx](https://docs.google.com/presentation/d/1TVU_TFZjAzYobDBM0PPMt7v08gJWEbci/edit?usp=sharing&ouid=105094547019382480330&rtpof=true&sd=true)

In view of above, members are requested to actively utilize the PM GatiShakti Public platform.

Dear Members,

We are pleased to inform you that CHEMEXCIL, in association with GPC, is organizing an informative Webinar on “Overview of Agrochemicals Registration in EU, UK, Turkey and India” as per the details below:

- Date: Thursday, 20th November 2025
- Time: 16:00 – 17:00 hrs (IST)
- Registration Link: https://gpcgateway.com/event_details/MzE0/Myw0LDYsNw--
- Participation Charges: NIL but Prior registration is mandatory
- Speaker: Mr. Krishnakant Soni, M. Pharm (Pharmacology)
- Senior Scientific Officer – Regulatory and Toxicology, Auxilife Scientific Services

This webinar aims to provide a comprehensive understanding of the regulatory frameworks governing the registration and management of plant protection products across India, Turkey, the European Union, and the United Kingdom. Participants will gain insights into registration procedures, data submission requirements, evaluation criteria, and risk assessment methodologies used by regulatory authorities in each region.

The session will also cover harmonization opportunities, current challenges, and strategic approaches for preparing compliant dossiers and facilitating efficient product registrations across multiple jurisdictions, helping participants navigate the evolving global regulatory environment effectively.

We encourage all member exporters dealing in agrochemicals to attend this insightful session and benefit from the expert's knowledge.

With regards,

Raghuveer Kini

Sub: Invitation to Join One-day Workshop on Compliance to Competitiveness at Bengaluru on 4th December 2025

- Voluntary Code of Conduct for business in Chemicals with Central Bureau of Narcotics (CBN)
- Role of FTAs in Exports and its Compliances.

Dear Members,
Greetings from CHEMEXCIL!

We are pleased to inform you that CHEMEXCIL, with the support of the **Central Bureau of Narcotics (CBN)**, is

organizing a one-day workshop focusing on “**VOLUNTARY CODE OF CONDUCT for business in Chemicals**” and Role of FTAs in Exports and its Compliances.

The workshop will be held on **4th December 2025** at **Suitable five-star hotel at Bengaluru City**. This initiative will align with our on-going efforts to support members in complying with regulatory frameworks and enhancing ease of doing business.

Members may be kindly aware that CHEMEXCIL has signed a MoU for observance of Voluntary Code of Conduct with the Central Bureau of Narcotics (CBN). The main objective of this MoU is prevention of diversion of Scheduled and Non-Scheduled Chemicals. The purpose of this MoU is to formalise the partnership between the Government of India and CHEMEXCIL. The signing parties work in collaboration to ensure that chemicals used in the manufacture of illicit drugs are not diverted from licit trade.

Along with this session, we are also organising one more important session, the details are as under :

Sr. No.	Particulars	Details
1	Date of the Event	4th December 2025
2	Time	10.00 am- 5.00pm followed by Networking lunch
3	Venue	Suitable Five Star Hotel in Bengaluru City. The venue will be intimated once it is shortlisted.
4	Number of Sessions	2
	1. Workshop on “VOLUNTARY CODE OF CONDUCT for business in Chemicals	This session will focus on creating awareness for clean business of chemicals, scheduled and non-schedules both, by way of adopting a set of responsible conduct voluntarily. The workshop would also facilitate a stage for trade interaction for better facilitation with optimum compliances and future policy for business in dual use chemicals. Faculty: Officers from The Narcotics Control Bureau (NCB)
5	2. Role of Free Trade Agreements in Exports and its Compliances	Basic meaning of FTAs, FTAs, CEPA, CECA difference, updates on new FTAs and its benefits for Chemical Exporters, Procedure and Understanding of Rules of Origin, Online Filing of COO, Case studies, Q&A. Faculty: Mr. Mihir Shah, M/s. Universal Connections, Mumbai
	Participation fees	To defray a part of expenses, a nominal participation fee is being charged as under Rs. 500/- + 18% GST .
6	Terms and mode of Payment	Advance (Online) on link below (PAYMENT Link) https://chemexcil.in/eventsPortal/payonline/MTc OR by NEFT on following bank details <ul style="list-style-type: none">• Name of Account: CHEMEXCIL SBI A/C. NO. 10996680758• Name and address of Bank: STATE BANK OF INDIA, MUMBAI MAIN BRANCH• Type of Account: Current• IFSC CODE: SBIN000030
7	Registration Link	https://forms.gle/c1sL9cxBWZEwtWFw8

The participation of the members of CHEMEXCIL is of utmost importance, for implementation of the voluntary code of conduct while conducting business with an objective to prevent the diversion of chemicals having potential of being used in manufacturing drugs of abuse.

Detailed agenda / program will be shared with confirmed participants.

We strongly urge all members to take advantage of this opportunity and attend this workshop by registering your name on registration link.

For further information or clarification, please contact Ms Nanditha Omprakash (Regional Executive) at robengaluru@chemexcil.in; (M) +91 90364 61650

Sub: Invitation to attend Exporters Outreach Session for Pilot Launch of Bharat Aayat Nirayat LabSetu on 7th November 2025 at 3:00 P.M.

Dear Members,

Greetings from CHEMEXCIL!

The Directorate General of Foreign Trade (DGFT), Ministry of Commerce & Industry, Government of India, has announced the Pilot Launch of "Bharat Aayat Nirayat LabSetu" - a unified digital platform integrating Testing and Inspection Agencies (TIAs) across India under a single window.

The LabSetu platform aims to streamline the process of testing and certification for export and import commodities by digitally connecting exporters, importers, and accredited testing agencies through a transparent and paperless online system.

Exporters will be able to seamlessly search, select, apply, track and obtain digital test reports and certifications across product categories through this portal.

The pilot phase began on 4th November 2025 with the onboarding of laboratories, while exporters and importers will be able to submit applications for product testing through the portal starting **11th November 2025**.

To raise awareness and guide exporters, DGFT is organizing a virtual outreach session on **7th November 2025 (Friday) at 3:00 PM**.

All member-exporters are encouraged to participate and understand the features, functionalities and benefits of the LabSetu system.

Session Details are as under:

- Date & Time:- Friday, 7th November 2025 | 3:00 PM onwards
- Meeting (Session) Joining Link:- <https://directorategeneralofforeigntrade.my.webex.com/directorategeneralofforeigntrade.my/j.php?MTID=m9c99ccfd5cde6bb2325738d945556a5a>
- Meeting Number: 2640 275 6981
- Password: 1234
- For video/phone access: Video System:- Dial 26402756981@webex.com
- Join by phone:- +65-6703-6949 Singapore Toll
- Access code: 264 027 56981

Exporters may continue to use the existing process in parallel during the pilot phase and are encouraged to register and explore the new platform at <https://trade.gov.in/pages/labsetu>

For reference, the following documents are attached:

1. DGFT Trade Notice No. 14/2025-26 dated 27.10.2025
2. User Manual for Laboratories (LabSetu)

Members are requested to attend the session and take advantage of this new digital initiative, which will further

enhance the efficiency and transparency of India's export certification ecosystem.

Thanks and Regards,

Raghuveer Kini

10th November 2025

To
All Members of the Council

Sub: Inputs Sought on Proposed Notification of Controlled Substances under NDPS Act: Regarding

Dear Members,

This is to inform you that the Central Bureau of Narcotics (CBN) has proposed to notify the following precursor chemicals as Controlled Substances under the RCS Order, 2013 of the NDPS Act, placing them under Schedule-A, citing their potential illicit use in the manufacture of synthetic drugs such as Mephedrone, Methamphetamine and MDMA:

1. 2-Bromo-4-Methylpropiophenone
2. Mono Methyl Amine (MMA)

CBN has sought inputs and suggestions from the industry regarding the legitimate international trade and industrial usage of the above substances to facilitate an informed policy decision.

Members dealing in the above products or their derivatives are requested to kindly share the details of international business in the chemicals mentioned above at the earliest:

- Nature of business and applications of the above substances
- Details of export/import (volumes, countries, etc.)
- Any concerns or recommendations from an industry standpoint

Your feedback will enable CHEMEXCIL to submit consolidated industry inputs to CBN.

Kindly send your response by 17th November 2025 to amrita@chemexcil.in; ad.del@chemexcil.in with copy to pw@chemexcil.in.

Your cooperation in this important matter of policy formulation is highly appreciated.

Thanks and Regards

Raghuveer Kini

All Members of Agrochemicals Panel

Sub: Invitation to Participate – Agribusiness Summit 2025 on 8 December 2025 at Hotel Taj Palace, New Delhi

Dear Member-Exporter,

We are pleased to inform you that the Agribusiness Committee of PHD Chamber of Commerce & Industry (PHDCCI) is organizing the Agribusiness Summit 2025. CHEMEXCIL is glad to extend support to this important initiative and invites all our Agrochemical manufacturing members to participate in the event.

The theme of this Agribusiness Summit 2025 is “Tripling the Agricultural GDP through Innovative Technologies and High-Quality Agri Inputs”.

Event Details are as follows:-

Date: Monday, 8 December 2025

Venue: Durbar Hall, Hotel Taj Palace, New Delhi

Time: 9:00 AM onwards (followed by networking dinner)

The summit will bring together senior policymakers, industry leaders, scientists, agri-entrepreneurs, and other key stakeholders to deliberate on strategies for strengthening India's agriculture sector through technology adoption, innovation, and quality inputs.

Interested members are requested to register for this summit using the following link: <https://www.phdcci.in/events/agribusiness-summit-202/>

For detailed program information, please refer to the brochure:

Link: <https://drive.google.com/file/d/12J9vUYJQducKXSasDYhaKLE17cljaj1/view?usp=sharing>

For any further queries, you may contact: Ms. Priyamvada Singh, Deputy Secretary, PHDCCI Email: priyamvada.singh@phdcci.in | Mobile: +91-7303358031

We encourage all interested members to participate and benefit from the insightful deliberations at the summit.

Thanks and regards,

Raghuveer Kini

TO

All Members of the Council

Sub: WEBINAR ON “RBI Regulations on Export Procedures & Compliance” Thursday, 11th December 2025.

Dear Members,

CHEMEXCIL, in collaboration with the Reserve Bank of India (RBI), is organising a Webinar on “RBI Regulations

on Export Procedures & Compliance" on Thursday, 11th December 2025, from 12:00 PM to 1:00 PM. The session will cover key aspects of export compliance, documentation, and foreign exchange regulations.

Basic Chemicals, Cosmetics & Dyes Export Promotion Council popularly known as **CHEMEXCIL** is set up by the **Ministry of Commerce & Industry Government of India** in the year **1963** with the objective of promoting exports of the following items from India to various countries abroad.

This session aims to provide exporters with greater clarity on RBI's regulatory framework governing exports, focusing on realization, repatriation, documentation, and compliance under FEMA.

Topics to be Covered-

1. Realization and repatriation of export proceeds of goods/software/services
2. Manner of receipt and payment of export
3. Foreign Currency Account
4. EDF / SOFTEX Procedure
5. Grant of EDF waiver
6. Receipt of advance against exports
7. EDF approval for Trade Fair/Exhibitions abroad
8. EDF approval for export of goods for re-imports
9. Direct dispatch of documents by the exporter
10. Follow-up of overdue bills
11. Reduction in invoice value on account of prepayment of usance bills
12. Reduction in invoice value in other cases
13. Write-off of unrealised export bills
14. Set-off of export receivables against import payables
15. Exporters' Caution List
16. Other related regulatory matters

Who Should Attend

- Exporters across all sectors
- Trade & finance professionals
- Banks and financial institutions involved in export documentation
- CHAs, consultants & compliance officers
- MSMEs & new exporters seeking procedural clarity

Topic: RBI Regulations on Export Procedures & Compliance

Speaker: Shri H. K. Patra, Manager and Shri Arindam Sen, Assistant Manager ~ FOREX EXCHANGE DEPARTMENT, RBI

Date: 11th December, 2025 (Thursday)

Time: 12:00 PM- 01:00 PM

Registration: Click Here for Registration <https://forms.gle/Y7PKe1XBbCc5wovs9> (Note: Meeting link will be emailed a day prior to the event)

In case of any queries please contact Ms. Shalini Basu on 9674882031.

With Kind regards,

Raghuveer Kini
Director General

Sub: Request for submit Questionnaire related to Proposed Notification of Precursor Chemicals under NDPS Act.

Dear Members,

This is in reference to the issue of misuse of certain precursor chemicals that have dual-use applications. It has been proposed to notify two currently unregulated precursor chemicals namely 2-Bromo-4-Methyl Propiophenone and Mono Methyl Amine as controlled substances under Schedule-A of the Regulation of Controlled Substances (RCS) Order of the NDPS Act, 1985.

In this regard, we have received the attached Questionnaire Format from the Department of Chemicals & Petrochemicals.

Members are requested to kindly furnish the requisite information in the attached format. Your inputs will enable CHEMEXCIL to submit a consolidated industry response to the Department of Chemicals & Petrochemicals.

Please send the duly filled questionnaire by 28th November 2025 to amrita@chemexcil.in with a copy to pw@chemexcil.in.

Thanks and Regards,

Raghuveer Kini
Director General

Sub: Awareness Programme on Chemical Safety and Security in Chemical and Allied Companies Tuesday, 23rd December 2025 | Time: 10A.M.onwards | Kolkata

Dear Members,

CHEMEXCIL is in receipt of an invitation from the Indian Chemical Council, Eastern Region (ICC-ERO), regarding an important Awareness Programme on “Chemical Safety and Security in Chemical and Allied Companies,” scheduled to be held on Tuesday, 23rd December 2025 in Kolkata.

The Indian Chemical Council (ICC), the apex national body representing the USD 220 billion Chemical and Petrochemical Industry, is organising this programme through its CWC Helpdesk and in association with the National Authority for Chemical Weapons Convention (NACWC), Cabinet Secretariat, Government of India. CHEMEXCIL is pleased to extend its active support to this initiative and invites its member-exporters to participate in this meaningful and capacity-building event.

The programme is designed to enhance understanding among industry professionals on safe handling, storage, security, and emergency preparedness related to chemicals, in line with national and global regulatory expectations.

Key Topics to be Covered:

- Overview of the CWC Act and its relevance to the Indian chemical industry
- Chemical safety and security management – best practices and industry perspectives
- Inventory management, storage, and transportation of toxic and hazardous chemicals
- Emergency preparedness and response planning for chemical incidents
- Roles and responsibilities of industries in compliance, declaration, and reporting under CWC
- Case studies and interactive sessions on safe handling and security of chemicals

Who Should Attend

Professionals from the Chemical & Petrochemical sectors, including Specialty Chemicals, Agrochemicals, Bulk Chemicals, Pharmaceuticals, Dyes & Pigments, Fertilizers, Petrochemicals, and Chemical Intermediates; EHS, Regulatory, Compliance & Safety Officers;

Plant Managers, Technical Personnel; R&D institutions, industrial estates, and units handling hazardous chemicals; Representatives from Industry Associations, Academia, and Government Departments.

Programme Details:

- Date: Tuesday, 23rd December 2025
- Time: 10:00 AM (followed by Lunch)
- Venue: Hotel Siamton Inn, 56 Park Street, Mullick Bazaar, Kolkata – 700017
- Participation Fee: No Participation Fee

Members are requested to confirm their participation by submitting the registration form at the following link:

<https://forms.gle/P99ssjeV1wpEnbTr>

Alternatively, confirmation may be sent via email to shalini@chemexcil.in.

CHEMEXCIL encourages its valued members to take advantage of this informative programme aimed at strengthening chemical safety, security, and regulatory compliance across the industry.

With Kind regards,

Raghuveer Kini

Sub: Webinar on Improving Working Capital Cycles in Export Trade: Leveraging Technology to Accelerate Receivables & Access Faster Export Financing 17 December 2025 | 3:00 pm - 4:30 pm IST

Dear Members,

CHEMEXCIL is pleased to announce an informative webinar in collaboration with ICICI Bank, focusing on how exporters can strengthen their working capital efficiency by adopting modern, technology-driven solutions for faster remittances and improved access to export financing.

In today's globally integrated environment, chemical exporters often face delays in inward remittances, extended working capital cycles, and challenges in obtaining timely export finance. This session will provide practical strategies to overcome these bottlenecks through streamlined cross-border banking and digital tools tailored for exporters.

Key Objectives

- Understand how cross-border banking impacts working capital cycles
- Identify systemic delays in inward remittance flows
- Explore technology-based solutions that improve receivables efficiency
- Learn practical steps exporters can adopt immediately to optimise cash flows
- Gain clarity on faster, smarter export financing options

Benefits to Members

- Clear understanding of delays in export remittance cycles
- Practical workflows to accelerate cash inflows
- Awareness of new-age tools that simplify export settlements
- Access to structured export financing options
- Opportunity to engage directly with experts and clarify queries

Webinar Details

- Date: Wednesday, 17 December 2025
- Time: 3:00 pm - 4:30 pm IST
- Platform: Google Meet (link will be shared upon registration)
- Participation Charges: NIL (Prior registration Mandatory)
- Registration Link: <https://forms.gle/VsFbKC36GKCK7qvPA>

Topics to be Covered

- Why Chemical Exporters Face Delayed Inward Remittances
- End-to-End Mapping of the Current Cross-Border Flow
- Common Friction Points in Banking & Documentation
- How Technology Can Make Cross-Border Banking Faster & Easier
- Practical Steps for Exporters to Accelerate Receivables
- Export Financing Options for Improving Working Capital
- Q&A / Open Discussion

Speakers for the webinar

Mr. Shubham Kedia, Director and Strategy & Operations Lead, TradePe RBI-regulated export banking platform

Mr. Shubham Kedia is a subject-matter expert in cross-border payment workflows, export compliance, and international banking operations. He works closely with exporters and banks to streamline remittances, automate compliance, and simplify export settlement processes. At TradePe, he leads strategic initiatives to enable faster, seamless, and more transparent cross-border transactions for Indian exporters.

We strongly urge all members to take advantage of this opportunity and participate in webinar by registering your name on registration link.

Sub: Webinar on US and EU Sanctions for the Indian Chemical Industry on 12th December 2025 from 11 am - 12 pm IST

Dear Members,

CHEMEXCIL is pleased to announce a specialized webinar in collaboration with Sidley Austin LLP, a leading international law firm with deep expertise in sanctions, export controls, and cross-border compliance.

As Indian chemical exporters increasingly engage with US and EU markets, financial systems, and global supply chains, it is critical for businesses to understand how international sanctions frameworks may impact their operations.

This practical, business-focused session will provide:

Key Takeaways

- How US and EU sanctions and export controls apply to Indian chemical exporters
- Common red flags and compliance challenges when dealing with international counterparties
- Practical steps to identify, manage, and mitigate sanctions-related risks
- Guidance on building stronger internal compliance mechanisms

Webinar Details

- **Date:** Friday, 12 December 2025
- **Time:** 11:00 a.m. IST
- **Platform:** Google Meet (link will be shared upon registration)
- **Participation Charges:** NIL (Prior registration Mandatory)
- **Registration Link:** <https://forms.gle/nfUoMU1zqn7kxXnd6>

Speakers for the webinar

- Ms. Shu Min Ho - Partner, White Collar Defense & Investigations, Sidley Austin LLP
- Mr David A. Silva - Partner, White Collar Defense & Investigations, Sidley Austin LLP
- Mr Manoj Bhargava - Partner, Co-Managing Partner (Singapore), Sidley Austin LLP

We strongly urge all members to take advantage of this opportunity and participate in this highly relevant and timely session by registering your name on registration link.

**Driving Export Excellence - Become a
CHEMEXCIL Member Today!**

CHEMEXCIL Membership benefits:

1. **Exhibitions Participation:** CHEMEXCIL actively participates in international exhibitions abroad, showcasing Indian exports and facilitating connections with global markets. Additionally, it invites overseas delegations to India, fostering long-term strategic alliances that enhance trade relationships and expand export opportunities. This initiative aims to elevate the visibility of Indian products and strengthen the country's presence in the global market.
2. **Policy Advocacy:** CHEMEXCIL is dedicated to addressing the policy concerns of its members by engaging with relevant ministries. It actively participates in Grievance Committee Meetings organized by the Directorate General of Foreign Trade (DGFT) to tackle issues faced by member-exporters related to customs, central excise, and port authorities. Through this advocacy, the Council works to resolve challenges, ensuring that exporters can navigate regulatory landscapes effectively and promote a more conducive environment for trade.
3. **Dissemination of Trade Information:** The CHEMEXCIL ensures its members stay informed through regular updates via circulars and email newsletters. These communications provide vital information on market trends, regulatory changes, export opportunities, and industry insights, empowering members to make informed business decisions and stay competitive in the global market.
4. **Export Awards:** CHEMEXCIL recognizes and celebrates exceptional export performance through its Export Awards program. By organizing an annual Export Award Function, it honors outstanding exporters for their contributions and achievements. This initiative not only acknowledges excellence within the industry but also inspires others to strive for higher standards in export practices.
5. **Networking Opportunities:** To connect within the chemical industry, CHEMEXCIL participates in international exhibitions being held abroad and invites overseas delegations to India to promote our exports and establish long-term strategic alliances.
6. **Trade Facilitation and Trade & Policy Assistance:** CHEMEXCIL provides comprehensive support for regulatory compliance and grievance resolution, guiding members through trade and policy matters involving the DGFT, banks, customs, and MSME regulations. It offers expertise on various export incentives, including the Duty Exemption Scheme, EPCG scheme, RoDTEP, and benefits for status holders. As the nodal agency appointed by the Ministry of Commerce & Industry for compliance with EU REACH legislation, it helps members navigate complex regulatory requirements.
Additionally, CHEMEXCIL assists in identifying suppliers and facilitating smooth trade deals between buyers and sellers. Members also gain access to a comprehensive industry database, enhancing their ability to source Indian chemical products effectively.
7. **Representation:** CHEMEXCIL plays a crucial role in advocating for trade issues with government authorities. It prepares and submits an Annual Action Plan to the Ministry of Commerce & Industry, focused on promoting exports of items within its purview. This plan includes budget proposals for participation in various international exhibitions and buyer-seller meets, both abroad and in India. By effectively representing the interests of member-exporters, the organization seeks to enhance export opportunities and support the growth of the industry.
8. **Documentation Support:** CHEMEXCIL provides essential documentation support to its members, issuing various certificates, including Certificates of Origin, RCMC, and Export Turnover Certificates. It also prepares recommendation letters for consulates and embassies to facilitate visa applications for member-exporters attending exhibitions, delegations, and business promotion tours abroad. CHEMEXCIL issues Non-preferential Certificates of Origin for exports of qualifying items manufactured in India. This support streamlines the export process and helps members comply with international trade requirements.
9. **Government Schemes & Export Incentives:** CHEMEXCIL provides comprehensive handholding support for members to access government schemes and export incentives. This includes financial assistance through initiatives like the Market Access Initiative (MAI), which covers approved international trade fairs, exhibitions, and virtual buyer-seller meets. Additionally, it offers guidance on statutory compliance in buyers' countries, ensuring that members meet eligibility criteria for various support programs. By facilitating access to these resources, CHEMEXCIL helps enhance members' competitiveness in the global market.
10. **New Business Support:** CHEMEXCIL creates platforms for new businesses and MSMEs to connect and grow. Export Guidance on Step-by-step guides on how to start exporting, secure trade financing, and ensure compliance with international regulations.
11. **Overseas Buyer Services:** CHEMEXCIL helps overseas buyers in identification of reliable suppliers based on quality, quantity, pricing, and specifications.
12. **Council's activities and Knowledge sharing Platforms:** CHEMEXCIL engages in various activities aimed at supporting exporters and promoting knowledge sharing across industries. These activities provide platforms for businesses to gain insights, network, and enhance their market access.
