From the Chairman's Desk

Dear Participants,

I am happy to welcome you all in the **Indian Dyes Virtual Trade Fair, Bangladesh, 2020**, first-ever Virtual Event exclusively for Dyes sector in Bangladesh organized by the council.

Basic Chemicals, Cosmetics & Dyes Export Promotion Council, Popularly known as CHEMEXCIL was established in the year 1963 by the Ministry of Commerce & Industry, Government of India with the objective of promoting Dyes & Dye Intermediates, Organic & Inorganic chemicals, Agro Chemicals, Soaps, Detergents, Cosmetics, Toiletries, Essential Oils, Castor Oils etc. CHEMEXCIL with a membership base of over 4000 provides free service as a reliable single point source of contact to help buyers in sourcing from India.

CHEMEXCIL has an extensive infrastructure as well as marketing and information facilities that are availed by both exporters and importers. In the Dyes / Chemical / Cosmetics sector, India's share of world trade has grown rapidly reflecting the excellent quality and competitive prices of our products.

The total export performance of the items covered by the Council for the period April 2019 to March, 2020 was USD 18.41 billion as against USD 19.14 billion of the corresponding period of last year.

As you are aware, that the ongoing pandemic has resulted in restrictions of overseas travel all across the globe and we have entered a New Normal scenario. The need of the hour is to move ahead and shift our focus from participating in physical exhibitions to virtual shows to connect with overseas buyers and build long term business relationships. Hence as an export promotional measure, we are organizing our first ever and exclusive Virtual Exhibition for Dyes in Bangladesh.

The show will bring together professionals from Dyes & Intermediate sectors and over 40 Indian Exporters from the Dyes industry who will showcase their products online.

As we all know, the "Ready Made Garments" (RMG) sector of Bangladesh is the one of the mainstays of its economy and it's valued at approximately USD 32Bn. This makes Bangladesh an important market especially for Dyes & Dye Intermediates sector.

In this context, export of Dyes & Dye Intermediates to Bangladesh during the period of April to March, 2020 was USD 149.00 million as against 145.69 million of the corresponding period of last year, registering a growth of 2.27%.

The purpose of virtual event is to promote India's exports of Dyes and Dye Intermediates, to create a positive brand image of Indian products. This would also result into interaction directly with the buyers / importers / traders in Bangladesh to enhance India's exports in this region.

I am very grateful to note that exporter members of Dyes sectors have been very enthusiastic and are able to participate and built up their stalls on this Virtual platform within a short period of time.

The response of Bangladesh buyers and its representatives has also being overwhelming. During the next 3 days, you will experience the new world of business transformation of the Dyes and Chemical Industry and I am sure this will open up many new windows of opportunity for all of us.

With warm regards,
 (AJAY K. KADAKIA)
 Chairman, CHEMEXCIL

FACT SHEET- BANGLADESH

Background:-

The huge delta region formed at the confluence of the Ganges and Brahmaputra River systems - now referred to as Bangladesh - was a loosely incorporated outpost of various empires centered on the Gangetic plain for much of the first millennium A.D. Muslim conversions and settlement in the region began in the 10th century, primarily from Arab and Persian traders and preachers. Europeans established trading posts in the area in the 16th century. Eventually the area known as Bengal, primarily Hindu in the western section and mostly Muslim in the eastern half, became part of British India. Partition in 1947 resulted in an eastern wing of Pakistan in the Muslim-majority area, which became East Pakistan. Calls for greater autonomy and animosity between the eastern and western wings of Pakistan led to a Bengali independence movement. That movement, led by the Awami League (AL) and supported by India, won the independence war for Bangladesh in 1971.

The post-independence AL government faced daunting challenges and in 1975 was overthrown by the military, triggering a series of military coups that resulted in a military-backed government and subsequent creation of the Bangladesh Nationalist Party (BNP) in 1978. That government also ended in a coup in 1981, followed by military-backed rule until democratic elections occurred in 1991. The BNP and AL have alternated in power since 1991, with the exception of a military-backed, emergency caretaker regime that suspended parliamentary elections planned for January 2007 in an effort to reform the political system and root out corruption. That government returned the country to fully democratic rule in December 2008 with the election of the AL and Prime Minister Sheikh HASINA. In January 2014, the incumbent AL won the national election by an overwhelming majority after the BNP boycotted, extending HASINA's term as prime minister. In December 2018, HASINA secured a third consecutive term (fourth overall) with the Awami League coalition securing 96% of available seats, amid widespread claims of election irregularities. With the help of international development assistance, Bangladesh has reduced the poverty rate from over half of the population to less than a third, achieved Millennium Development Goals for maternal and child health, and made great progress in food security since independence. The economy has grown at an annual average of about 6% over the last two decades and the country reached World Bank lower-middle income status in 2014.

National Flag:-

The national flag of Bangladesh was adopted officially on 17 January 1972. It consists of a red disc on top of a green field. The red disc is offset slightly toward the hoist so that it appears centred when the flag is flying.

National Emblem of Bangladesh:-

The national emblem of Bangladesh was adopted shortly after independence in 1971. Located on the emblem is a water lily, that is bordered on two sides by rice sheaves. Above the water lily are four stars and three connected jute leaves.

ECONOMY - OVERVIEW

Bangladesh's economy has grown roughly 6% per year since 2005 despite prolonged periods of political instability, poor infrastructure, endemic corruption, insufficient power supplies, and slow implementation of economic reforms. Although more than half of GDP is generated through the services sector, almost half of Bangladeshis are employed in the agriculture sector, with rice as the single-most-important product.

Garments, the backbone of Bangladesh's industrial sector, accounted for more than 80% of total exports in FY 2016-17. The industrial sector continues to grow, despite the need for improvements in factory safety conditions. Steady export growth in the garment sector, combined with \$13 billion in remittances from overseas Bangladeshis, contributed to Bangladesh's rising foreign exchange reserves in FY 2016-17. Recent improvements to energy infrastructure, including the start of liquefied natural gas imports in 2018, represent a major step forward in resolving a key growth bottleneck.

BILATERAL RELATIONS BETWEEN INDIA AND BANGLADESH

India was the first country to recognize Bangladesh as a separate and independent state and established diplomatic relations with the country immediately after its independence in December 1971. The relationship between India and Bangladesh is anchored in history, culture, language and shared values of secularism, democracy, and countless other commonalities between the two countries. It is based on sovereignty, equality, trust, understanding and win-win partnership that goes far beyond a strategic partnership. In the last couple of years, the relationship has been further strengthened including through cooperation in new and high-technology areas.

High Level Visits and Exchanges There have been regular high-level visits and exchanges between the two countries. There have also been frequent visits at Ministerial level as well as between senior officials on a regular basis.

Bangladesh is India's biggest trade partner in South Asia. Bilateral trade between India and Bangladesh has grown steadily over the last decade. India's exports to Bangladesh in FY 2018-19 stood at US\$ 9.21 bn and imports from Bangladesh during the same period were US\$1.04 bn. Meetings of various institutional mechanisms to promote bilateral trade including that of border haats, shipping, LCS/ICP infrastructure and on establishment of Indian Economic Zone etc were held in 2019. In order to promote cooperation on bilateral trade, both the Prime Ministers agreed to create an India-Bangladesh CEO's Forum to provide policy level inputs in various areas of trade and investment and also to facilitate exchanges among the business communities of both the countries. 12. Cooperation in power sector has become one of the hallmarks of India-Bangladesh relations. Bangladesh is currently importing 1160 MW of power from India. The meetings of Joint Working Group (JWG)/Joint Steering Committee (JSC) on power were also held in 2019

VIRTUAL EXHIBITION AT A GLANCE

HIGHLIGHTS - Indian Dyes Virtual Trade Fair, Bangladesh, 2020

As an export promotion measure, CHEMEXCIL organizes it's first-ever Virtual Show - **Indian Dyes Virtual Trade Fair, Bangladesh 2020**, exclusively for dyes sector, which was scheduled from **17th - 19th October 2020**.

Bangladesh majorly imports dyes & textile chemicals from countries like India, Singapore, China, Taiwan and South Korea etc. The demand for dyes & textile chemicals in Bangladesh is largely driven by exports of knitted and woven garments from the country to international market. The main objectives to organize in this Virtual Trade fair were:-

- To establish good contacts with business enterprises and commercial organizations and to build the vibrant platform for promoting exports to Bangladesh.
- To explore the possibilities of expansion of two way trade.
- Possibilities of collaboration in Bangladesh.

As we know that because of the ongoing pandemic there are restrictions on overseas travel resulting in cancellation of most of the reputed international shows all across the globe. During such challenging times and restrictions, as the world moves to a New Normal scenario, the need of an hour is to move ahead and shift our focus from participating in physical exhibitions to virtual shows to connect with overseas buyers and build long term business engagements.

In this context the event was conducted on online Venue <https://Chemexcil.GPEexpo.com> and received kind support from the High Commission of India Dhaka, Bangladesh & Bangladesh Paint Manufacturer Association.

The offline inauguration was organized on 17th October at 9.30am in the kind presence of the Chief Guest Shri. Vikram Doraiswami, Honourable High Commissioner, High Commission of India in Bangladesh, Guest of Honour Shri. S Suresh Kumar, Honourable Joint Secretary from Ministry of Commerce & Industry, Government of India along with Shri. Ajay Kadakia Chairman, Chemexcil & Shri. S.G. Bharadi, Executive Director, Chemexcil.

The show has witnessed over more than **480** Visitors and delegates, of which **417** buyers from Bangladesh.

Within a short period of time, the Council has managed to deliver a great successful show, which created a new benchmark for the council, which was appreciated by Exporter members as well as Bangladesh buyer

This event helps in building long term business engagements in Indian and Bangladesh Market.

Glimpses of the Exhibition
