CHAIRMAN'S DESK

Basic Chemicals, Cosmetics & Dyes Export Promotion Council, Popularly known as CHEMEXCIL was established in the year 1963 by the Ministry of Commerce & Industry, Government of India with the objective of promoting Dyes & Dye Intermediates, Organic & Inorganic chemicals, Agro Chemicals, Soaps, Detergents, Cosmetics, Toiletries, Essential Oils, Castor Oils, etc. CHEMEXCIL with a membership base of over 4000 provides free service as a reliable single point source of contact to help buyers in sourcing from India.

CHEMEXCIL has an extensive infrastructure as well as marketing and information facilities that are available by both exporters and importers. In the Dyes / Chemical / Cosmetics sector, India's share of world trade has grown rapidly reflecting the excellent quality and competitive prices of our products.

CHEMEXCIL provides a wide spectrum of services to Trade and Industry and acts as a catalyst for the growth of India's Trade by promoting Dyes and Dye Intermediates, Basic Organic and Inorganic Chemicals, Soaps, Detergents, Cosmetics, Toiletries, and other products like Essential Oils, Castor Oil, etc. It has an extensive infrastructure as well as marketing and information facilities that are availed by both exporters and importers.

The total export performance of the items covered by the Council for April 2021 to March 2022 was USD 24313.88 Million as against USD 17533.04 Million in the previous year registering an increase of 38.67 %.

The total export of Chemicals to EU during the year 2021-22 is USD 4362.71 million as against USD 2919.87 million of the corresponding period last year (2020-21) registering positive growth of 49.41%.

As you all are aware that CHEMSPEC EUROPE exhibition, which is one of the dedicated Fine and Specialty Chemicals Event, being organized by Mack Brooks Exhibition Ltd on 31st May – 1st June 2022, at Messe Frankfurt, Germany.

After a long wait of 2 years, CHEMSPEC EUROPE will continue to offer businesses the perfect platform to connect with the International Fine & Specialty Chemicals market.

During the event, members will be able to meet existing clients and gain new ones. It will also assist them in obtaining potential contacts and achieving new business leads from visitors in their target market. It's a great platform from which to introduce a new product or service. This will raise awareness of the brand and its products.

I am confident that CHEMESPEC EUROPE 2022 in Germany will provide an opportunity for our exporting community to clinch attractive business deals as well as provide a unique opportunity to showcase their manufacturing capabilities for the fructification of India's "Make in India" program.

All participants and visitors at CHEMSPEC EUROPE 2022 in Germany are wished success in their endeavors.

With warm regards,
S G MOKASHI
Chairman, CHEMEXCIL

BRIEF of GERMANY

As Europe's largest economy and second most populous nation (after Russia), Germany is a key member of the continent's economic, political, and defence organizations. European power struggles immersed Germany in two devastating World Wars in the first half of the 20th century and left the country occupied by the victorious Allied powers of the US, UK, France, and the Soviet Union in 1945. With the advent of the Cold War, two German states were formed in 1949: the western Federal Republic of Germany (FRG) and the eastern German Democratic Republic (GDR). The democratic FRG embedded itself in key Western economic and security organizations, the EC, which became the EU, and NATO, while the communist GDR was on the front line of the Soviet-led Warsaw Pact. The decline of the USSR and the end of the Cold War allowed for German unification in 1990. Since then, Germany has expended considerable funds to bring Eastern productivity and wages up to Western standards. In January 1999, Germany and 10 other EU countries introduced a common European exchange currency, the euro.

Geography:

As Europe's largest economy and second most populous nation (after Russia), Germany is a key member of the continent's economic, political, and defence organizations.

Location:

Central Europe, bordering the Baltic Sea and the North Sea, between the Netherlands and Poland, south of Denmark

Area:

Total: 357,022 sq km

Land: 348,672 sq km

Water: 8,350 sq km

Climate:

Temperate and marine; cool, cloudy, wet winters and summers; occasional warm mountain (foehn) wind

Natural resources:

Coal, lignite, natural gas, iron ore, copper, nickel, uranium, potash, salt, construction materials, timber, arable land

Population:

84,316,622 (2022 est.)

Economy Overview:

The German economy - the fifth largest economy in the world in PPP terms and Europe's largest - is a leading exporter of machinery, vehicles, chemicals, and household equipment and benefits from a highly skilled labour force. Like its Western European neighbours, Germany faces significant demographic challenges to sustained long-term growth. Low fertility rates and a large increase in net immigration are increasing pressure on the country's social welfare system and necessitate structural reforms.

Reforms launched by the government of Chancellor Gerhard SCHROEDER (1998-2005), deemed necessary to address chronically high unemployment and low average growth, contributed to strong economic growth and falling unemployment. These advances, as well as a government subsidized, reduced working hour scheme, help explain the relatively modest increase in unemployment during the 2008-09 recession - the deepest since World War II. The German Government introduced a minimum wage in 2015 that increased to \$9.79 (8.84 euros) in January 2017.

Stimulus and stabilization efforts initiated in 2008 and 2009 and tax cuts introduced in Chancellor Angela MERKEL's second term increased Germany's total budget deficit - including federal, state, and municipal - to 4.1% in 2010, but slower spending and higher tax revenues reduced the deficit to 0.8% in 2011 and in 2017 Germany reached a budget surplus of 0.7%. A constitutional amendment approved in 2009 limits the federal government to structural deficits of no more than 0.35% of GDP per annum as of 2016, though the target was already reached in 2012.

The German economy suffers from low levels of investment, and a government plan to invest 15 billion euros during 2016-18, largely in infrastructure, is intended to spur needed private investment. Following the March 2011 Fukushima nuclear disaster, Chancellor Angela MERKEL announced in May 2011 that eight of the country's 17 nuclear reactors would be shut down immediately and the remaining plants would close by 2022. Germany plans to replace nuclear power largely with renewable energy, which accounted for 29.5% of gross electricity consumption in 2016, up from 9% in 2000. Before the shutdown of the eight reactors, Germany relied on nuclear power for 23% of its electricity

generating capacity and 46% of its base-load electricity production. Domestic consumption, investment, and exports are likely to drive German GDP growth in 2018, and the country's budget and trade surpluses are likely to remain high.

GDP:

\$4,238,800,000,000 (2020 est.)

\$4,457,050,000,000 (2019 est.)

\$4,432,430,000,000 (2018 est.)

Note: data are in 2017 dollars

Industries:

Among the world's largest and most technologically advanced producers of iron, steel, coal, cement, chemicals, machinery, vehicles, machine tools, electronics, automobiles, food and beverages, shipbuilding, textiles

Industrial production growth rate: 3.3% (2017 est.)

Exports:

\$1,671,650,000,000 (2020 est.) note: data are in current year dollars

Exports - commodities:

Cars and vehicle parts, packaged medicines, aircraft, medical cultures/vaccines, industrial machinery (2019)

Exports - partners

United States 9%, France 8%, China 7%, Netherlands 6%, United Kingdom 6%, Italy 5%, Poland 5%, Austria 5% (2019)

Imports:

\$1,452,560,000,000 (2020 est.) note: data are in current year dollars

\$1,593,720,000,000 (2019 est.) note: data are in current year dollars

Country comparison to the world: [4](#)

Imports - commodities:

Cars and vehicle parts, packaged medicines, crude petroleum, refined petroleum, medical cultures/vaccines (2019).

Imports - partners:

Netherlands 9%, China 8%, France 7%, Belgium 6%, Poland 6%, Italy 6%, Czechia 5%, United States 5% (2019)

CHEMSPEC EUROPE

ABOUT the Exhibition:

It is the ideal promotional platform for Manufacturers and Suppliers of fine and speciality chemicals for any of the following industries: Biotechnology, Oilfield chemicals, Colours & dyestuffs, Agro chemicals, Contract Manufacturing, Cosmetics, Healthcare, Pharmaceutical, Water Treatment, and many others. Providers of services to the fine and specialty chemicals industry, such as formulation, custom and toll processing, process instrumentation and automation providers, suppliers of drums, containers, bags and packaging, lab and analytical equipment suppliers, and banks, investment houses, and venture capital firms.

In just two days, exhibitors meet buyers from every type of industry sector; customers, distributors, end-users, and new prospects. No other trade show offers such a comprehensive return on investment.

Some of the world's largest suppliers of fine and specialty chemicals and associated products and services can be found at CHEMSPEC EUROPE with many attendees representing manufacturing and consumer companies servicing multiple industries, CHEMSPEC EUROPE provides the perfect opportunity to connect with visitors from not just Europe but around the world.

CHEMSPEC EUROPE 2022

As an export promotion activity for the year 2022-2023 Chemexcil has participated in CHEMSPEC EUROPE 2022, The Specialty Chemical Show, 31st May-1st June-2022 at Hall 12.1, Messe Frankfurt, Germany. This event was recommended to DOC under the MAI Scheme of the Department of Commerce, Government of India.

This event is approved under the MAI Scheme of the Department of Commerce, Government of India vide letter no. F. No. K-11-2-/431/2021-E&MDA dated 20th April 2022 for 25-Indian Exhibitors.

Following a long wait of two years, CHEMSPEC EUROPE has continued to be the perfect platform for the businesses to connect with the International Fine & Specialty Chemical market.

The Inauguration Ceremony was organized on 31st May 2022 at 1000 hrs. (Frankfurt Time) The Indian Pavilion inaugurated by **H.E. Dr. Amit Telang**, Consul General of India in Frankfurt, along with **Shri S. G. Mokashi**, Chairman, CHEMEXCIL, **Shri. Prafulla Walhe Deputy Director**, CHEMEXCIL.

H.E. Dr. Amit Telang, has also visited Indian Members Exporter Stalls, The members-exporters were happy to interact with the visiting dignitaries.

In the **Total 26 member-exporters** from CHEMEXCIL participated in this Exhibition with Total area of 488 sqmtr. CHEMSPEC EUROPE 2022 attracted **5,122** industry experts from **57 countries**, of which **3,162** were trade visitors. A total of **287 exhibitors** from **26 countries** presented their product portfolio on a net exhibition space of 5,300 m2 at Messe Frankfurt, Germany.

Participants in the show had the opportunity to attend a total of **43 conferences** covering various topics, from ongoing R&D projects to current outlooks and regulatory challenges facing those in the global chemical supply chain. The conferences did not only offer valuable insights into trends and developments but also encouraged discussions, exchange of expertise and networking between international industries peers. The program included the “Agrochemical Lecture Theatre”, provided review of the current market and future progress within the agrochemical sector.

A total of **3,162 trade visitors** from **57 countries** visited CHEMSPEC EUROPE 2022, with strong participation from **Germany and Switzerland**, followed by **United Kingdom, France, Italy, the Netherlands and Spain** as major European visitor countries. Non-European visitors mainly came from India and USA. The primary responsibilities of the visitors within their companies were senior management, purchasing and procurement, research and development.

Participants in the show had the opportunity to attend a total of 43 conferences covering various topics, from ongoing R&D projects to current outlooks and regulatory challenges facing those in the global chemical supply chain. The conferences did not only offer valuable insights into trends and developments but also encouraged discussions, exchange of expertise and networking between international industries peers.

The programme included the “**Agrochemical Lecture Theatre**”, organised in association with IHS Market Crop Science, providing a review of the current market and Future progress within the agrochemical sector.

In the “**Pharma Lecture Theatre**”, speakers gave Lectures on the challenges and prospects of the pharmaceutical industry. The “Pharma Outsourcing Best Practices Panel” brought together the pharmaceutical industry and CROs and CDMOs engaged in contract research and custom synthesis of Active Pharmaceutical Ingredients (API) to discuss current issues and strategic approaches to future success.

EXPORT STATISTICS
